

Faculty of Education and Communities

The issues you raise via student reps, module feedback and student surveys are used to make decisions at every level of the University. We want to let you know what happens with your ideas and comments and update you on the work we're doing to improve your student experience.

It's Done

- Students queried whether the car park would be made in to a “proper” car park (i.e., tarmacked) and with bays to ensure cars are not blocked in.
 - CP met with the building manager to raise car parking issues, and a member of student experience was also in attendance. This continues to be an ongoing issue as plans for the future use of the car park area are still being discussed.
- Students were informed about the NSS. All students on the programme have completed this survey.
- Students requested further information regarding graduation – i.e., date/time, buying tickets, ordering cap and gown etc. Also, whether there would be a graduation ball.
 - Students were informed of the dates of graduation week and informed that registry will be sending out information regarding graduation directly to students within due course. Students were also informed that a ball is not something that the university organises, but students are welcome to organise this themselves.
- Students were informed of an opportunity to meet with Mark Thomas to discuss future career, CV writing, interview techniques, etc.
- Students were informed of the upcoming student BPS conference in Aberystwyth University on 4th May and that transport would be provided free of charge to students.
- Students were informed that ‘Research Boot camp’ has been arranged again this year on 8th-9th June and reps are to encourage the cohort to sign up.

We're Working On It

- Nothing from the staff-student panel remains outstanding.

We Can't Solve This Right Now

None
