

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
1. Engagement with Literature Skills		
2. Knowledge and Understanding Skills		
Generally, the codebase for this website is well structured, but we are specifically looking at the js/jquery elements. Although you have documented for the js/jquery - the outcome is in need of complex elements in order to get a better mark - but for what has been provided, a fair attempt	15	7
3. Cognitive and Intellectual Skills		
Although you have met the requirements on the assessment, your approach to developing the solution is somewhat limited and should have been a reflection on how you decided upon an approach to development. What you have documented is an "Overview".	15	4
4. Practical Application Skills		
On the whole a fair attempt at getting a js/jquery enabled site working. Elements around data validation are fine (with colour coded elements) is a good start, but you could have put more validation checks in the mix. Other js/jquery elements i.e., dark/light mode works well across the site, the relevance of a slide show is demonstrated to a good effect. It is a shame the site could have stayed within the boundaries of the size of the monitor (stops the need for scrolling). However, this is a good attempt, but for higher marks your could have put more complex js/jquery elements into the page	70	35
5. Transferable Skills for Life and Professional Practice
