Comments:

Good introduction - confident presentation
Aims & objectives on slide, not
fully explained. Why did you choose topic?
Examples given - some diagrams
too small to see. Internet ~~examples~~ examples
- what's the implication for smart cities in
rural? Good review of local examples.
Why web interface, not app?
Wireframe outline design presented
& layout responsive?
Project plan presented - key tasks need completing
earlier.
For development, be careful you are including enough
technical for a Web Dev project. eg use ^{Bus} API for personalisation
perhaps use exposed JSON feed or similar. Project should
not be only front end, must have sufficient back end content
