~~the~~ Rice returned.

Wednesday 26

Some obvious can form our terms of force/torque etc.
Left: None submitted today - plenty in report.
Areas of report missing in notes - i.e. v. little
discussion undertaken on the 3x phases
conducted. felt a little rushed - maybe
due to a mixture of nerves & knowledge.
A very simple software application demo'd.
Some errors in code - mainly ironed-out
during viva.
• Future work considered - little detail given.
