

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
General Comments		
This assignment is let down with a lack of evidence on the practical section and not completing all the research topics. Your following assignments need to include all topics and work requested.	100	39
1. Engagement with Literature Skills		
You have researched the topics, listing many sources of information in your bibliography which you have referenced in your document. However more referencing of academic papers would have broadened your research.	20	9
2. Knowledge and Understanding Skills		
You have explained hypervisors showing a range of information on these. However there is no detail on IP addressing or testing included at all. Also for the hypervisor section there is no discussion of different software or a choice made.	12	7
3. Cognitive and Intellectual Skills		
While you have described the hypervisors and covered how it works there is very little analysis of why we use.	15	5
4. Practical Application Skills		
The assignment asked you to set up 2 servers and workstations, however your evidence only has 1 server and workstation. Also no names assigned to most or IP addressing done or ping used on all machines.	40	12
5. Transferable Skills for Life and Professional Practice		
You have produced a clear report that includes all sections. More attention to detail though such as removing the sub-heading on the cover sheet would have enhanced your report.	10	6
