

Employability skills

- NAME: Silvana Montalvo Riofrio
- Student ID:2130452
- Module Name: Academic and Employability skills
- Module Code: LCHS4001
- Lecturer: Anitta Nan

OVERVIEW

- My intended career
- SWOT Analysis
- Technical Skills
- Problem-solving and critical thinking skills
- Communication Skills
- PDP
- Conclusion
- References

- **My Intended career**
- As a regional medical officer I will discover new opportunity that will assist in promoting my professional skills.
- I will provide high quality both in primary and controllable medical care to all people
- Engage with other people in foreign nations to promote peace and explore their cultures
- **Skills required**
- Time management skills. I have an effective plan on ways to use the available resources.
- Good communication skills. Able to communicate with others well.
- Problem-solving skills. Able to solve any form of conflict in the society.

SWOT Analysis

- **Strengths**
 - High level of success rates
 - Good communication skills with patients
- **Weaknesses**
 - Longer patient waiting period
 - Bad financial management
- **Opportunities**
 - Convenient parking
 - Cost-effective
- **Threats**
 - Stiff competition
 - Security threats

TECHNICAL SKILLS

- This is the abilities I am required to perform certain tasks as a medical officer. The skills I have include the following:
- Describe medicines in a right manner
- Able to administer all kinds of treatments required
- Being able to explain the results obtained from the laboratory
- Understanding the signs of the patients
- Diagnosing the state of the patients
- Being able to provide any follow up care required

PROBLEM SOLVING AND CRITICAL THINKING SKILLS

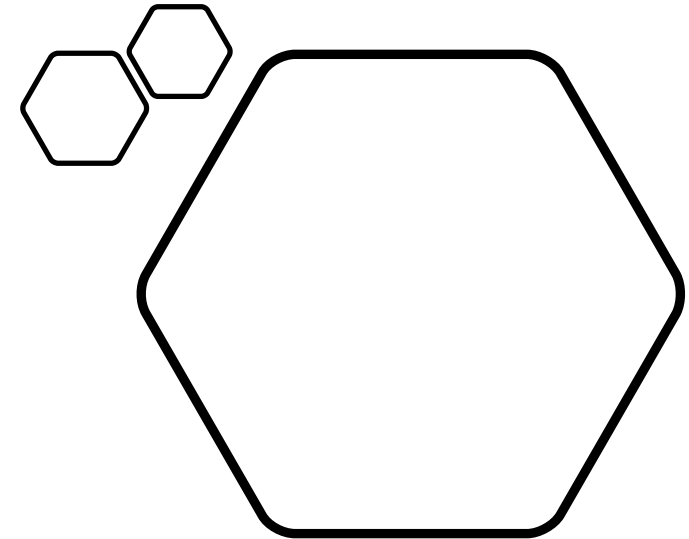

- These are skills which are used to solve any issues which arise in the society and be able to come up with the right solution to them. The skills I have in this field include:
- Thinking analytically
- Thinking in a creative manner concerning any issues experienced in an organization
- I have the potential to ask questions concerning different activities happening in the workplace
- Being open minded
- I am a solution oriented thinker

Communication skills

- Being a doctor requires one to have effective skills that will enable them to relate with people in their workplace. Communication skills are essential for any doctor. The skills I have in this field include the following:
- I have verbal communication skills
- Effective written communication skills
- Good body language skills
- Fluent communication in terms of language
- Potential to provide feedback as required

Personal development plan (ways to improve weaknesses)

- **Ways to control longer patient wait**
- I will develop advanced lead workflows to increase efficiencies and production.
- I will use mobile queue to reduce the number at reception area
- **Ways to control bad financial management**
- Development of a realistic monthly budget
- Start a new investment plan
- Track my spending to improve the amount of financial savings

Conclusions

My intended career has enabled me know how to interact with people from different backgrounds

It has helped me with interpersonal, communication, emotional intelligence, teamwork, negotiation, influence, conflict resolution, and problem-solving skills.

It has enabled me to be organized and having good communication skills (Pouratashi and Zamani, 2019).

It has enabled me to have high level of willingness to learn different aspects related to this field.
