

Name: Sabiah Ahmed

Student ID: 2438382

Module Code: LCHS4001

Module: Academic and Employability skills

Lecturer: Markus Klingelfuss

Submitted on: 28/10/2025

1. Research	I started my research by researching on the national careers website 'Teaching Assistant National Careers Website' it was easy and straightforward all the information I needed was on the website, I enjoyed doing research as I did look at other several websites but the one I loved best was the National Careers Website.
-------------	---

2. Presenting	I prepared for my presentation as I made sure all the information I needed, I included and then I used a 5 min timer and was trying to practise reading all the script and was reading it slowly as I would read it acting like I am presenting. That was quite reassuring for me as I thought I had written a lot and didn't want to go over 5 minutes, so the fact that I finished a little under 5 minutes was good as I knew I was prepared. What went well was that I was confident as I started speaking, I was a little nervous when I saw the camera when I entered the room, but I didn't take note as I started speaking, I was just thinking I'm just talking to my tutor Markus having a normal conversation and I finished on time. What was difficult was that I've never done something similar to presenting but I was very nervous.
3. Challenges you faced	The challenges I faced whilst doing research are when I needed to use the websites, I used for the CRAAP test I had completely forgotten to note down the websites used so when I needed them I really struggled and then had to use other options. I struggled using the CRAAP test it was very difficult trying to find how current the information was and then trying to answer each question some of the questions didn't make sense. The challenges I faced whilst doing presentation in class was it was my first time doing something like this but had a lot of reassurance and support from my tutor and I was able to handle my nerves.
4. Actions to improve	For the next time I want to ensure that I note down websites I've used, and make sure there is a word count limit I stick too also ensure that I stick to the 5 minute timer in class and speak loud enough. For the in class presentation I would definitely try memorising a lot of what I've wrote and not be directly reading of the script.
5. Further steps needed to Prepare for Task 3	I need to make sure next time I use Harvard referencing, try preparing at least 2 weeks before, using however much the recommended time is, and note down the websites as I go along, speak a bit louder.
