Threats, Vuln and Attacks discussed. The approach on what it is? What are the types? Etc are good approach. Guidelines given, but very generic. Wifi access to customers using a code is a guideline for the company and not for customers. What is the technical term to use codes to access wifi? Poor formatting.	8.7

Packet Tracer Certificate documented Physical and Logical Topology could have been documented more appropriately. Instructions/ screenshot on steps to create a network is not required, as you are submitting the pkt file. Implementation Done. Wireless devices placed. Could have configured wireless network. IP Address configured. Configuring intermediate devices needs improvement. No security devices were placed. Not discussed about security devices in the report.	24
