Education

2020 - 2023

**University of Wales Trinity
Saint David - Swansea**

Product and Furniture Design

During my time studying product and furniture in UWTSD, I gained many skills that have made me a confident designer and maker. I have a wide portfolio of both product and furniture that reflect myself and the knowledge I have to create innovative and stylish pieces.

Skills

- Fusion 360
- Photoshop
- KeyShot
- Wood work
- Sketching

Profile

From sketching to crocheting, I have always had a strong creative drive and my passion led me to study Product and Furniture design in the University of Wales Trinity Saint David Swansea. Although I seek to create functional furniture, my passion is to make every piece a work of art. My organisation skills and strong attention to detail help me to succeed in my designs. In addition to designing, I love to travel, experience different cultures and food, and most importantly spend time with my family and friends.

Experience

External Projects

Orangebox - Designing Office Furniture

Ikea - Collaboration Project

Cerebra - Collaboration Project
