THE USE OF CONTEMPORARY TECHNOLOGY IN HEALTHCARE (DIAGNOSTIC, ADMINISTRATIVE AND CARE SUPPORT)

- **Ability to store and retrieve data efficiently**
- **Potentially decreases the risk of medical errors**
- **Communicates patients information in a legible format**
- **Blood pressure machines**

THE USE OF TECHNOLOGY DURING COVID-19

- **Zoom and skype allows colleagues to attend virtual meetings**
- **Companies share information during the covid crises**
- **Vital information on platforms helps stop the spread of covid**
- **Data platforms for infection rates information**

CONCLUSION

The use of contemporary technology in healthcare (diagnostic, administrative and care support) and the use of technology during covid-19 as highlighted in the above slides has greatly benefitted healthcare organisations through easy access to information related to covid-19

Technological breakthroughs has also helped save lives through the use of state of the art technological equipment.
