In this section for a student to do well, they needed to do in-text referencing from credible and relevant diversity of sources. Where possible one will be expected to critically appraise the literature engaged. Lastly one is expected to apply appropriate referencing conventions. Good work ! You could have referenced some of narratives in the practical work	12.7

Feedback	Mark
To do well in this section one needed to demonstrate cognitive and intellectual skills by critically analysing and evaluating different technologies and methods used in practical work. There was also a need to answer the why , how and when , questions so as to give justification for arguments and judgements made through out the whole assignment. Well done! Room for improvement on critical analysis	16

Practical Application Skills	40
Feedback	Mark
For a student to excel they needed to provide evidence of the practical work done by using time stamped screenshots and a narrative text to accompany the screenshots. It needed the skill to know which screenshots to include and how much to write as a narrative and when to reference the narrative. Good work, but at some point it was as if you are creating and installation manual as opposed explaining what you did.	35.2
