

How to Create a Chart in Microsoft Word

Nur Begum Sapna
Student ID: 2422707
Lecturer: Kazeem Oseni

1. Microsoft word history

Microsoft word was developed by Charles Simonyi and Richard Brodie. Microsoft word was launched for Xenix and MN-DOS in october 1983.

2. How to create step

On the insert tab, click the chart button.
Select a chart type from the insert chart window.

3. How to chart data

A spreadsheet will open in the document.
Enter your data into the spreadsheet.

4. How to edit & layout

Use the chart tab to edit the chart, and the chart styles button to change its layout.

5. References
