

Information Engineering building context Diagram and DFDs

BEVERLEY HOLLAND

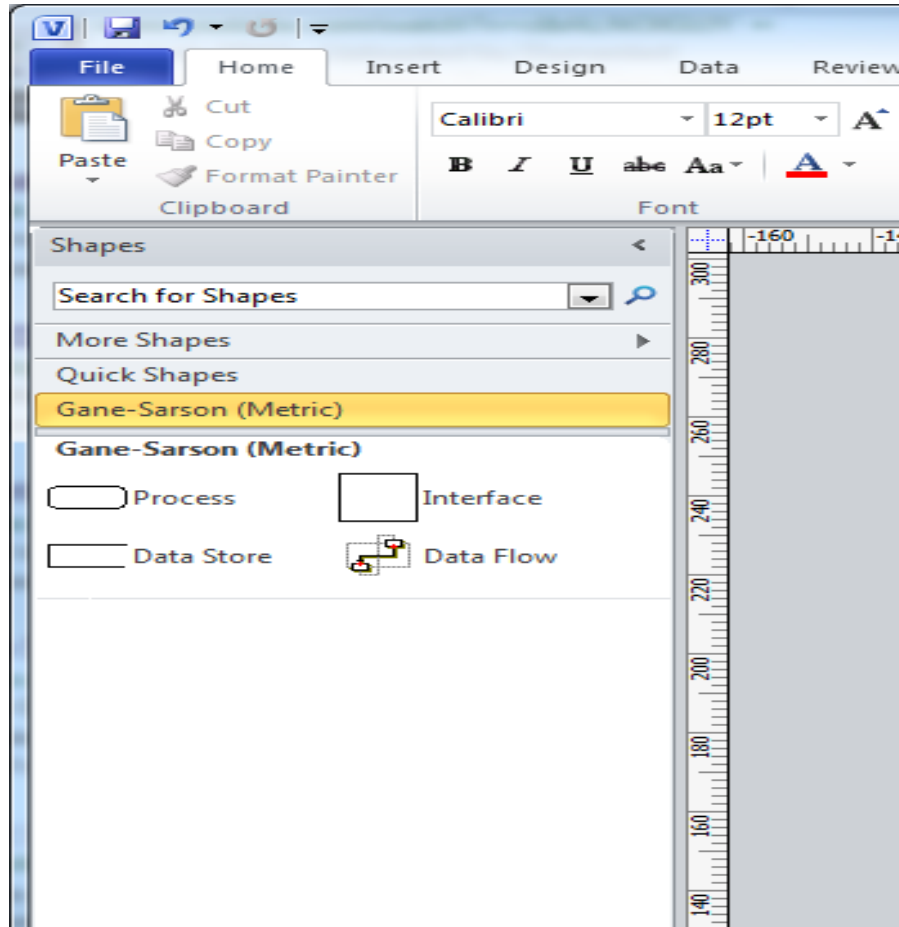

Data-Flow Diagramming with visio

Using Visio to construct Data Flow Diagrams (Data Flow Model Diagrams) *DFDs*. Under the Software and database option in Visio. Choose Data Flow Diagram and create leave the units as Metric.

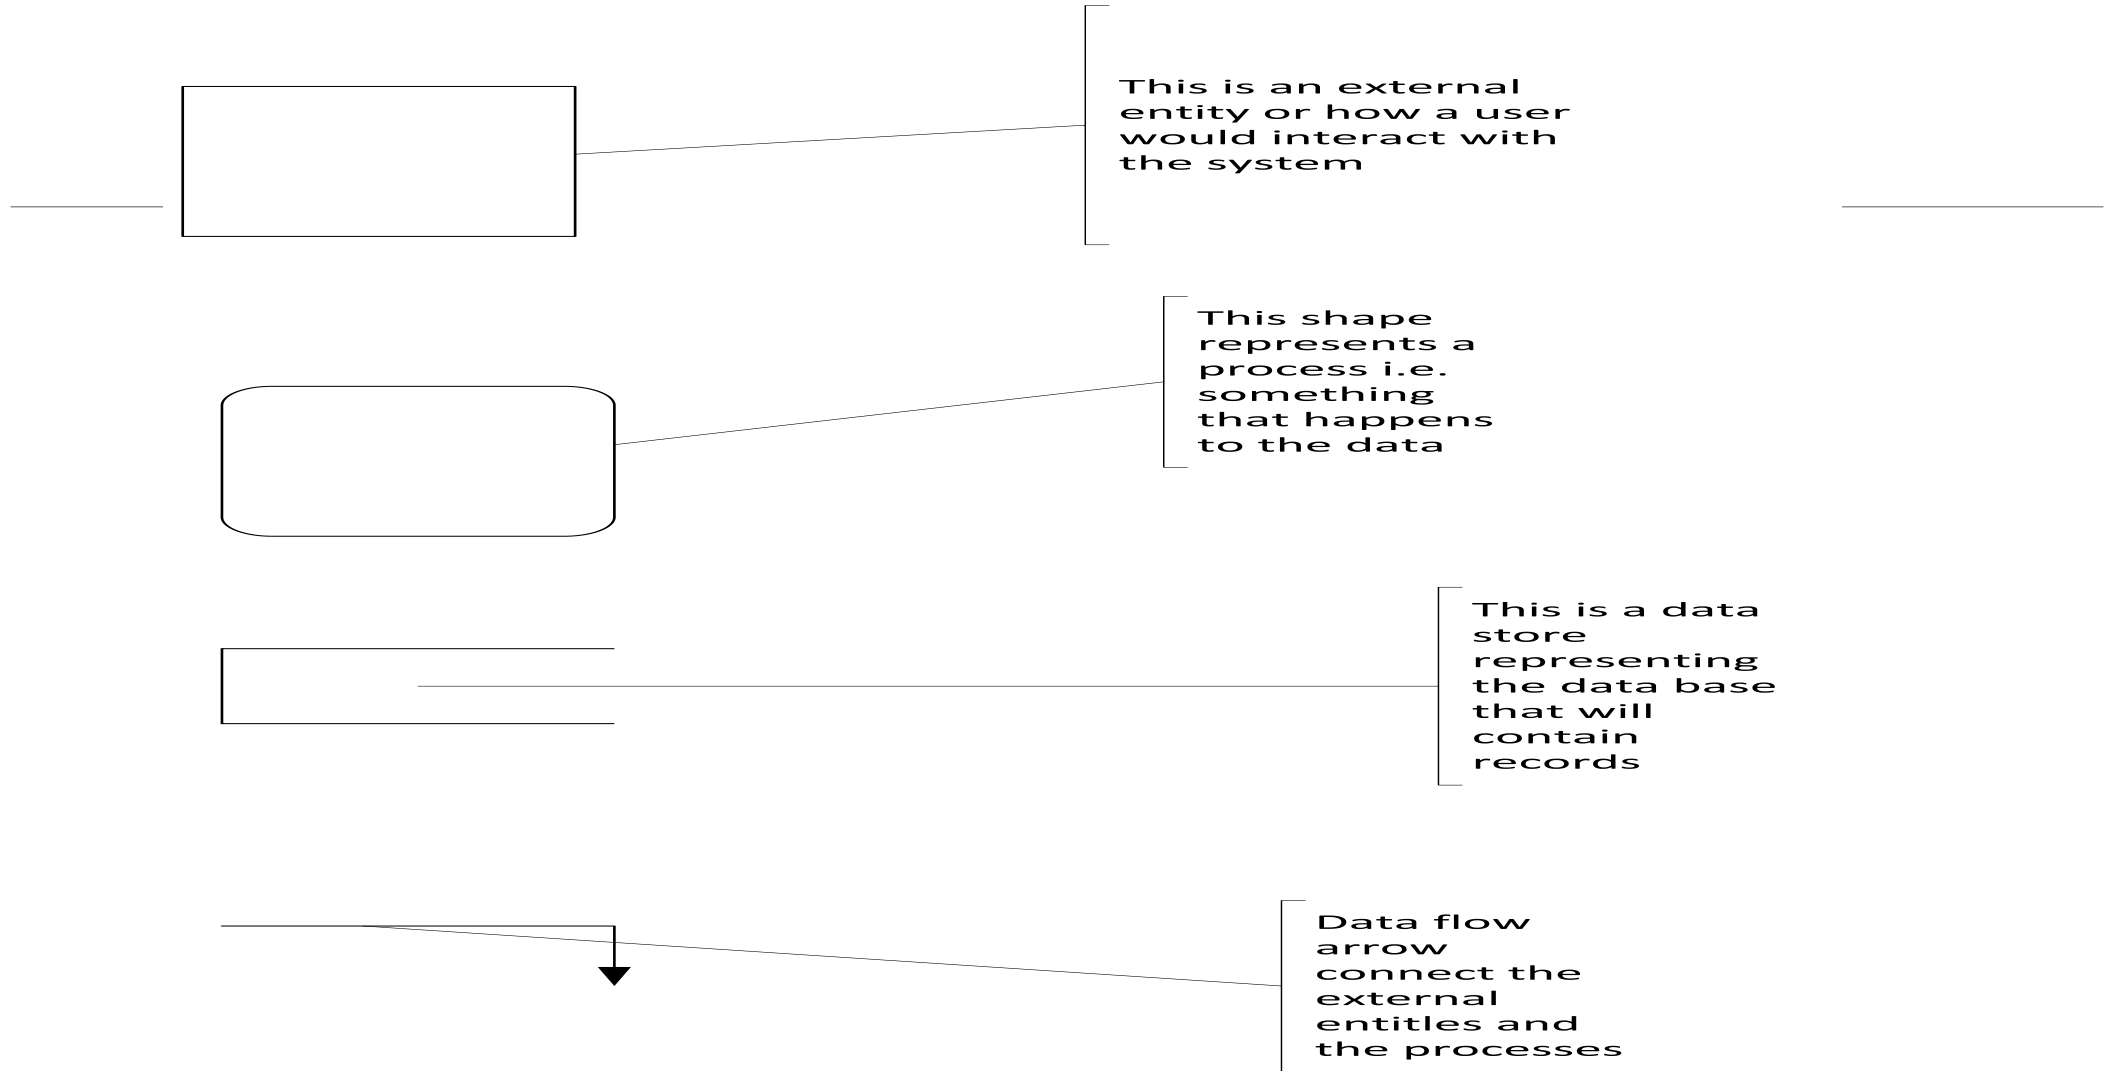

Data-Flow Diagramming with visio

- A well-documented version of DFD design is that of Gane-Sarson. Visio provides the following shapes;
- We drag and drop the shapes onto the drawing paper area and start to build our diagram.
