

BASIC DIGITAL SAFETY

TIPS FOR PROTECTING YOUR PERSONAL DATA

1 PROTECT YOUR PERSONAL DIATALS BY USING STRONG PASWORD

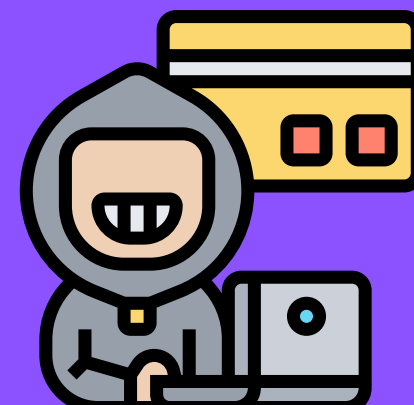

Your pasworld must be long and not link to any of your personal data. Use synbols and capital letters. Do not share your pasword or confimation code.

2

BE AWARE ABOUT SCAMERS AND FOLLOW JUST VERIFID LINKS

To avoid scam you need check link by verification website do not exept very nice offer and regect windows what can come out when you online

3

DO NOT SHARE YUOR PERSONAL DIATALS

Do not share your personal data in social medias. do not fill out forms in pop-up windows. Not need add to much photos as scammers can use them to know about you.

4

AVOID PUBLIC WI- FI
