Marked By	Nitheesh Murugan Kaliyamurthy

Engagement with Literature Skills	40
Feedback	Marks
In this section to do well, you need to do in-text referencing from credible, relevant and diverse academic and industry sources for Network Automation Frameworks, Tools, API Standards and Architecture, its security and compliance policies and various resources available. Where possible you will be expected to critically appraise and summarise the literature engaged and to apply appropriate referencing conventions. Poorly done. No adequate/ appropriate in-text citation done. Most of the work was copied from the internet sources. However, they were not cited. The couple of in-text citations not adequate. Could have referred to more academic credible sources. No critical appraisals or summaries of the literatures found. More discussion on Key concepts required. Lack of engaging with literature skills.	5.2

Knowledge and Understanding Skills	30
Feedback	Mark
To score high marks you need to demonstrate systematic understanding of network automation frameworks, tools, standards, architecture and its importance. The strength of statements need to reflect clearly the underlying principles, and critical understanding of concepts with appropriate examples and adequate figures/ diagrams. More efforts required. More appropriate and adequate discussion on frameworks, tools required. In addition to automated testing, discussion on software development, configuration management etc could have added value. The lack of diverse sources of literature is the key. Failed to demonstrate critical understanding. More reflection on underlying principles, the importance of frameworks, architectures and standards could have added value to the work.	12

Cognitive and Intellectual Skills	20
Feedback	Mark
To do well in this section you need to demonstrate cognitive and intellectual skills by critically analysing and evaluating Network Automation frameworks, tools, standards and architectures. There was also a need to address similar resources (where available, what is the cost, etc), with adequate arguments and judgements. Critical review on security, compliance policies and API security and privacy required. More critical analysis on Framework, Standards and Architecture required. Similar resources not discussed adequately. More critical review on security, compliance policies required.	6.3

Practical Application Skills	0
Feedback	Mark
Not Applicable	0

Transferable Skills for Life and Professional Practice	10
Feedback	Mark
To score high you need to ensure that the document is of high quality and professionally done. There should be a good flow of ideas , with evidence of proper use of the spelling and grammar tool and a complete and neat presentation of work. Marks for the structure of the document were also considered in this section. Could have formatted the report. Adding Chapter numbers could have made easier to follow the flow of the report	6.8
Overall Mark	30
