Man you got some very crisp beats! Was wondering if you wanna team up on a song I've been thinking about. A dance pop tune, standard 120 bpm, trance/dream pop influences with a cinematic twist - a monster voice I've been playing around with. Got some beats/ideas along those lines?

Would be fab to collab 🙌🙌

For sure! We can set a day and we can get together in the studio to work on it. I don't usually make this type of music, but I like the sound of that and yeah, I'm down to meet up and try to throw some ideas around. I'm free this week on Thursday and Sunday all day, so let me know if that works well for you.
