

Dear Steven,

Allow me to introduce myself – I am a BA (Hons) Illustration student studying at Swansea College of Art, about to commence my final year. As part of my major project I am required to work with an external client. I would very much like that client to be Roger La Borde, as I greatly admire the work you publish and the illustrators you commission. Your designs are always unique and appear to set trends, rather than follow them.

The main area of interest for my future career is the gift and greeting card industry and this is the focus of my major project. I have visited both the Spring Fair and Pulse and constantly research this field visiting websites and retail outlets.

I would very much appreciate the opportunity to spend time at your studio to gain valuable experience of the real world of illustration and design. I have both traditional and digital drawing and painting skills. I use the following software packages: Photoshop, Illustrator and InDesign, and also enjoy working with typography/lettering. I have attached a few images of my work.

Thank you for taking the time to read this, it would be wonderful to hear that I have the exciting chance of a short work experience placement at your studio.

I look forward to hearing from you.

Regards,

Delyth.
