- 
- 
- Like every young person, I have my own ideas about my future, goals i want to achieve , ideas to realize to be a successful manager in the company that is currently I working

This is my steps
to successful

Way I chose this profession

I chose this profession because I like to be a leader and manage people, I also love challenges. In general, this profession has good prospects and realization. It gives very good results and the payment is very good.

I am motivated person

- I will work hard and learn hard to be a successful and good student this is a plus for me and my career, in the future to realize a dream that will change my life .

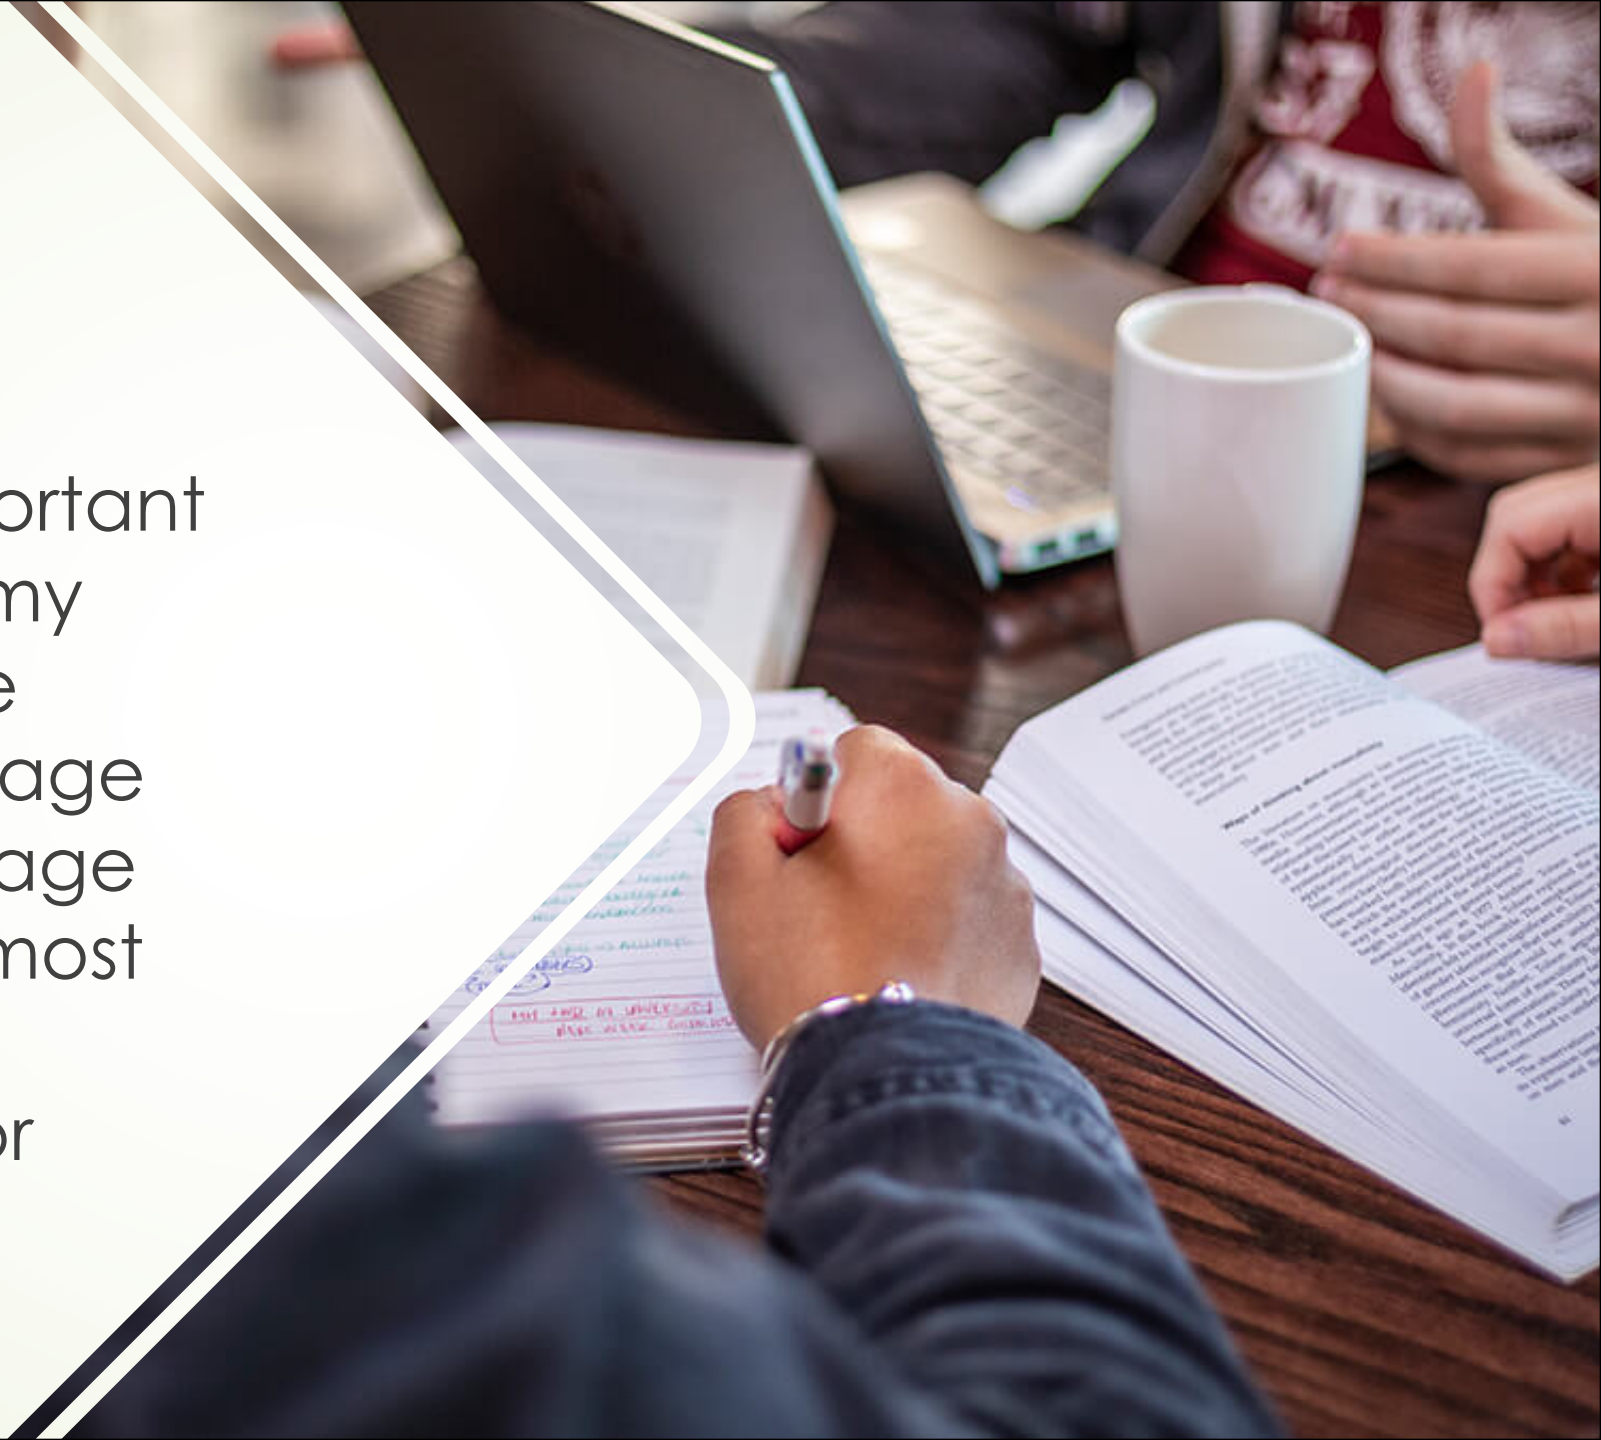

My future profession

What is it the profession I chose, I chose manager. As I said above, I like to be a leader and to organize my work, it is easy for me and for my team for the future, so it is not going to be easy, but as I say, I love challenges and I believe that one day i will be a successful manager with successful team.

What I will have the possibility learn while studying it.

- One of the most important things especially for my profession that I have chosen. How to manage people, how to manage your time is also the most important thing to manage your time for everything.

● There is few things I
can introduce

1-People management

2-Professional career
development

3-Problem Sloving and Decision
making and much more .
