Literatures referred to the work. Could have referred to more academic credible literatures and Industry whitepapers. Summaries on the literatures could have added more value to the work. Most of the literatures referred were from online sources. How are the literatures cited? If one literature (online source eg: IBM Cloud Education, "hypervisors", lbm.com, 2019) is referred to multiple statements in your work, why not referring it to 1? Why did you add 1,2,5,9, 10?	8.3
