53

RESEARCH-INFORMED LITERATURE

A reasonable number of sources used, though maybe a little too heavily from the web, some being non-authoritative. Some web sources can be acceptable - e.g. you've used TechNet in a fair few places. Microsoft can be considered authoritative, though not necessarily objective on their technologies - fine to cite, though caution must be taken when talking about anything potentially subjective.

6

KNOWLEDGE AND UNDERSTANDING

Some fairly good knowledge and understanding evident, unfortunately slightly limited by the relatively short submission for worksheet 5 (worth 20%). The actual knowledge you've understood is good - but I'm aware you had a few issues getting the work complete, which has slightly limited the mark in this section.

9

ANALYSIS

Some reasonable analysis, and a few interim conclusions drawn. Try to combine sources a little more if possible - we'll discuss this in class.

9

PRACTICAL APPLICATION AND DEP.

A reasonably good attempt made at worksheets 1-3. Worksheet 4 is missing the practical, but nonetheless, some good work overall.

22

SKILLS FOR PROFESSIONAL PRAC.

You write well - be careful of American spellings, and the odd errant bit of grammar. Documents are nicely presented.
