

New Moodle Interface Guide

The 2017/18 academic year will see the introduction of a new, unified Moodle serving the University as a whole. Although much of the functionality remains the same, the look and feel is a little different. See below a guide to new navigation features.

The navigation menu is now collapsed by default and can be opened again by clicking on the  icon:

The editing options are now contained behind the  icon, as commonly used for access to website and app settings.

Introduction

Announcements

PLACEHOLDER

Replace this text with your own including contact details of lead tutors, brief outline description of module and guidance on expectations on students' use of the page.

You may wish to replace the placeholder image with an image relevant to the module or delete it altogether.

Note: this section is currently hidden from student view. If you have chosen to populate it with your own content please remember to unhide it once you are ready for the students to see it.

Also note that the module itself is, by default, hidden and you will need to unhide it once you have finished setting up your content. To do this click on the gear symbol  above the Green/Red edit button in the top right of the screen, select 'Edit settings' and change the 'Visible' field to 'Show'. Save your change and return to the module page.

- Hide global events
- Hide course events
- Hide group events
- Hide user events

The course format is set by default to "Collapsed Topics" to minimise the need for excessive scrolling. Click on a topic name to expand it and see the content.

Each module page created in the New Moodle is from a standard template and includes:

- Announcements and Module Evaluation Questionnaire as standard.
- Placeholder image and text for a module introduction – this is currently hidden and will need to be edited and then "unhidden" if you wish to use it.
- A dedicated assignment links section – remember to create a draft and a final link for each assignment.
- Three blocks as standard – Quickmail, Moodle Mobile (send texts) and Calendar.
