

Title and the module code : Academic and
Employability Skills BMSW4001

Assignment title: **My employability skills in
relation to veterinary medicine**

Lecture's name: JOANNA WALSH

Student name : NATALIA BEJENARI

Student number: 2125544

Contents

- Introduction
- SWOT Analysis
- Personal assessment in relation to the job
- Personal Development Plan
- Conclusion

Introduction

- This presentation intends to analyse my employability skills in relation to my dream job, veterinary doctor. A veterinary doctor, or vet, is a medical professional who provides medical care to animals.

SWOT ANALYSIS

- Attention to detail
- Patience and the ability to remain calm in stressful situations
- Good dexterity
- Decision making

- Knowledge of animal medicine and dentistry
- Knowledge of biology
- Customer service skills
- Excellent written and communication skills in English

S W
O T

- Accumulation of experience through veterinary volunteering
- Courses and jobs near my home

- Requirement of higher education
- Entry to university courses is highly competitive

Personal Development Plan

Where am I
now?

Where do I
want to be?

How can I
get there?

Personal Development Plan

	Short and Mid-term time frame (3 months - 2 years)	Long-term goals (2 - 3 years)
My goals	- Obtain my IELTS diploma	Be enrolled in a veterinary medicine course (5 years)
Skills and knowledge to acquire	- Excellent English written and communication skills - Customer Service skills	- Knowledge of animal medicine and dentistry - Knowledge of biology
Steps to acquire the above skills	- Take an English course - Engage in extracurricular university activities - Take a customer service job	- Become a volunteer at a local veterinary clinic or a farm - Participate in the conferences and research that the university will offer

Conclusion

- My personal skills and experience give me an advantage in the field of veterinary medicine;
- The weaknesses can be worked on through my personal development plan ;
- The time frame is realistic and will allow me to achieve my goals without burnout.
