

MARKING CRITERIA and STUDENT FEEDBACK

This section details the assessment criteria. The *extent* to which these are demonstrated by you determines your mark. The marks available for each criterion are shown. Lecturers will use the space provided to comment on the achievement of the task(s), including those areas in which you have performed well and areas that would benefit from development/improvement.

Common Assessment Criteria Applied	Marks Available	Marks Awarded
General Comments		
Overall a good assignment with a clear and well produced assignment. The main area of weakness is in the report where the research was not done that was requested. Read the assignment brief carefully to make sure you complete all parts of the assignment.	100	62
1. Engagement with Literature Skills		
A clear and well laid out report but you have not researched academic papers on the topics requested. You have referenced correctly but not listed statements from any research paper.	20	9
2. Knowledge and Understanding Skills		
A clear website that uses a range of web standard languages such as HTML and Bootstrap, in addition there is own generated CSS to individualise the site but also no use of JavaScript to add features. You have used a range of features overall to set out a variety of content.	15	10
3. Cognitive and Intellectual Skills		
You have interrelated your validation testing clearly and stated the changes you made, you have also talked about the accessibility of your website and show how it ranks. You have also evaluated your website and stated improvements you could have made. More in depth research here is needed though.	15	9
4. Practical Application Skills		
You have produced a clearly laid out and informative site. You have included web standard languages for the layout and many features. Your site works well on various sized devices but your menu does not work on the home page when viewed on a phone. There is varied content with unfortunately 2 items not loading on the homepage but overall it is clearly laid out with much of interest.	40	12
5. Transferable Skills for Life and Professional Practice		
Your report is well laid out and includes all the requested sections. It is clear in its use of language and is enhanced by the clear layout you have used.	10	9

Assignment Mark (Assessment marks are subject to ratification at the Exam Board. These comments and marks are to give feedback on module work and are for guidance only until they are confirmed.)
