

The hungry caterpillar

page 1

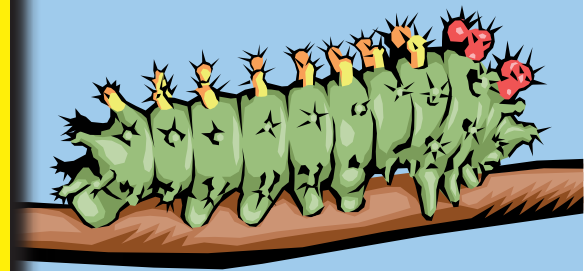

Why do
caterpillars eat
so much?

What do caterpillars eat?

Look at the pictures of caterpillars.
Can you see what they are eating?

Where would you find a caterpillar?

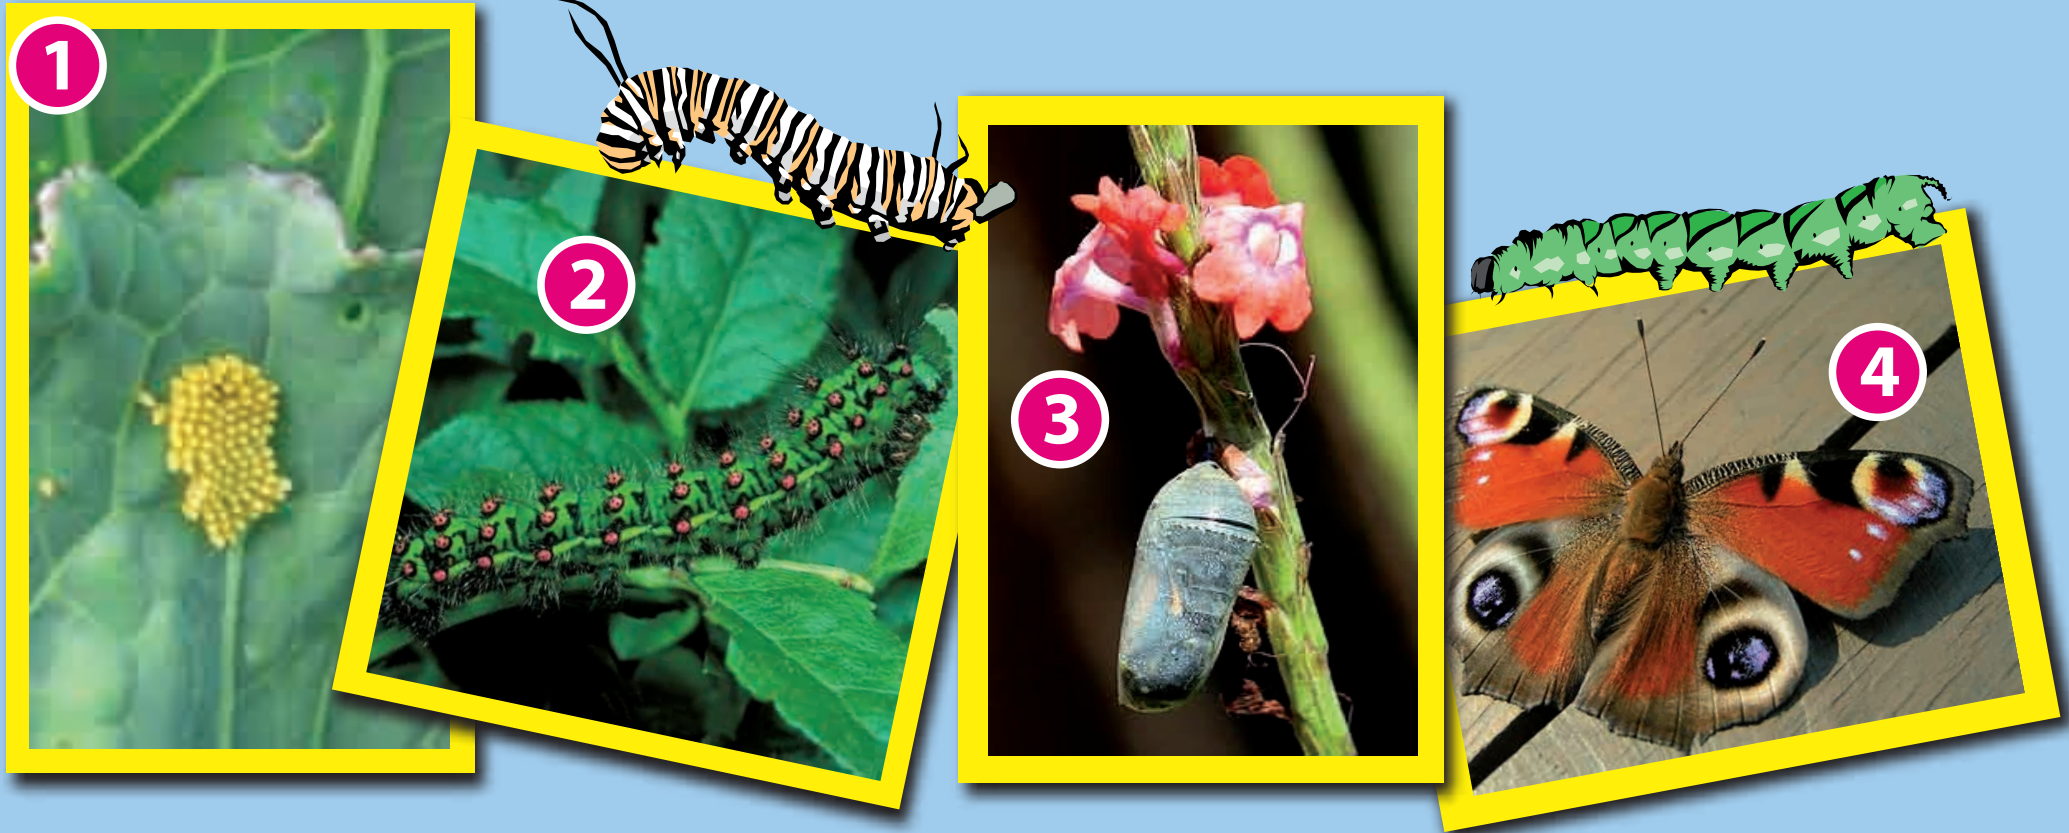

- The caterpillar eats lots of food so it can grow bigger.
- But the caterpillars cannot carry on growing bigger and bigger.
- Caterpillars change as they grow older.

CATERPILLAR changes

The pictures show how the caterpillars change as they grow older.

- Adult butterflies can reproduce and lay more eggs.
- A caterpillar's life starts again.
- This is called a life cycle .

Life cycle of a butterfly

The caterpillar is one of the stages of the life cycle of a butterfly.

Cut out these pictures and glue them onto a life cycle sheet.

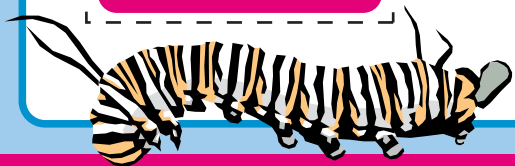

Inside my
case I am
changing.

Match the writing to the pictures.

I can crawl.
I like to eat leaves.

I have wings
and I can fly.

I am tiny.
I am stuck
on a leaf.
