

Use Subject Toggles in Moodle

Collapsed Topics: Collapsed topics are tabs on the Moodle page that can open and close on a mouse click or screen tap allowing users to limit content on the screen.

Step 1: On your Moodle page in the Administration block **left click** [Edit Settings](#)

Step 2: Scroll down to **Course Format** and from the drop down **Format** menu **left click** **Collapsed Topics**

Step 3: Left click [Save and return to course](#)

Save and return to course

View: Users **left click** the tabs to expand or collapse the contents.
