For Some Things, there is No Rational Explanation.

There is No Way Out.

There is No Happy Ending to this Story.

Welcome... To the Unknown.

Welcome... To Eternal Darkness

Welcome...

To **Oblivion**.

GENERAL COMMENTS

Instructor

Thanks for this Ellis. Some really nice pieces here. Clear representation of skills/topics discussed in lectures with work present, well done.

Perspective drawings both appealing and structurally informative, would make good pieces to give down the line to a modeler. Great job.

Personal passion shining through on work with the extensive theming. Character orthographics usable, in industry standard A-Style posing. Good character portrait with personality. Well done.

Some excellent creature designs with clear application of colour and light theory discussed in class to emphasise features. Great work.

Line of action fluent and clear in last piece, further evidence of student adding value to work from lecture content. Great work.

I would liked to have seen a bit more compositing/photobashing work though, perhaps further enhance the existing piece by adding reflections of the main focus (the horse) in the water surrounding it? Just small touches like that add a lot of value to compositing pieces.

Overall, Great job. Well done.
