### Rough guide:

Should you decide to stay on the MDes you will normally progress to year 4 if you attain 55% average mark at year 3. Those with 55% to 59% will be at the discretion of the exam board. 60% + will be automatic.

Those on the BA will graduate this summer & you have the option to leave or apply to the MA – you will need a good 2:1+ to be considered.

Those on the current MDes can opt to Transfer to the BA and graduate this summer & you have the option to leave or apply to the MA – you will need a good 2:1+ to be considered. Should you want to transfer we will need a decision very soon. May the 25<sup>th</sup> absolute latest – if you are definite, a decision by Easter would be beneficial as the registry department will be sending graduation invites out over the Easter break.

If you know you're likely to attain a low class 2:2 or lower please opt to transfer to the BA soon should you wish to attend graduation in July this year.
