

HOW TO INSERT *Hyperlinks in PowerPoint?*

1

Select the Text or Object
Click the word, image, shape, or icon
You want to make it clickable.

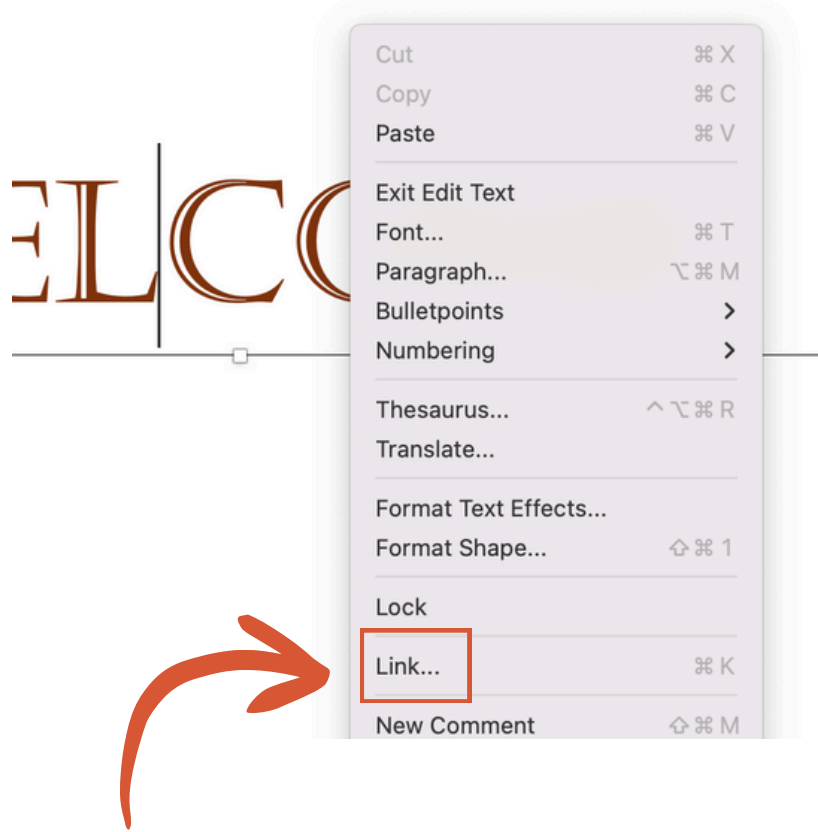

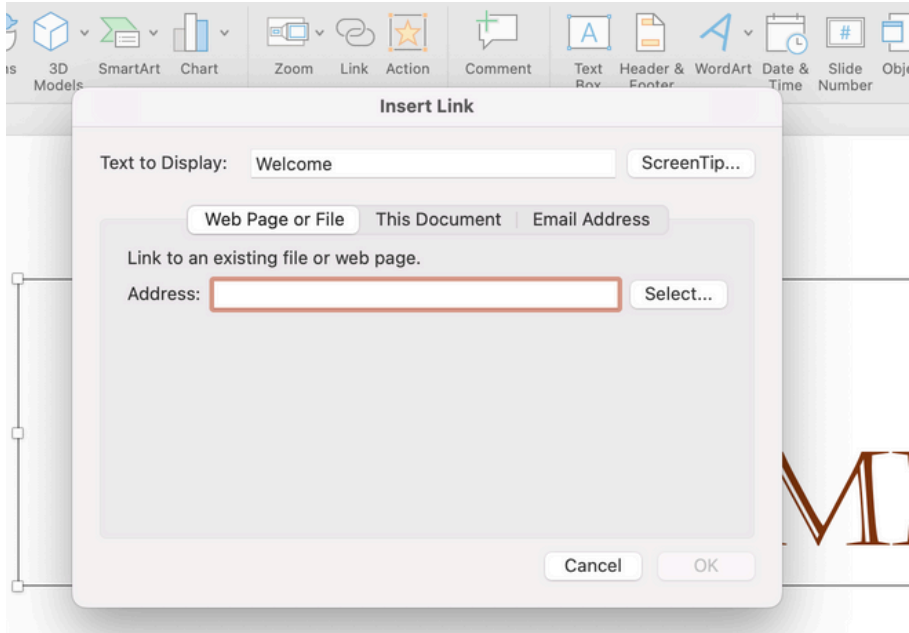

2

Open the Link Tool
Go to Insert → Link or right click → Link

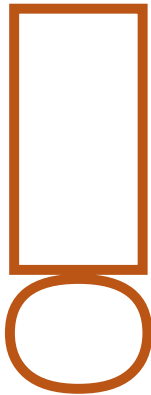

3

Choose Your Link Type
Website (URL), another silde,
an email address, or file.

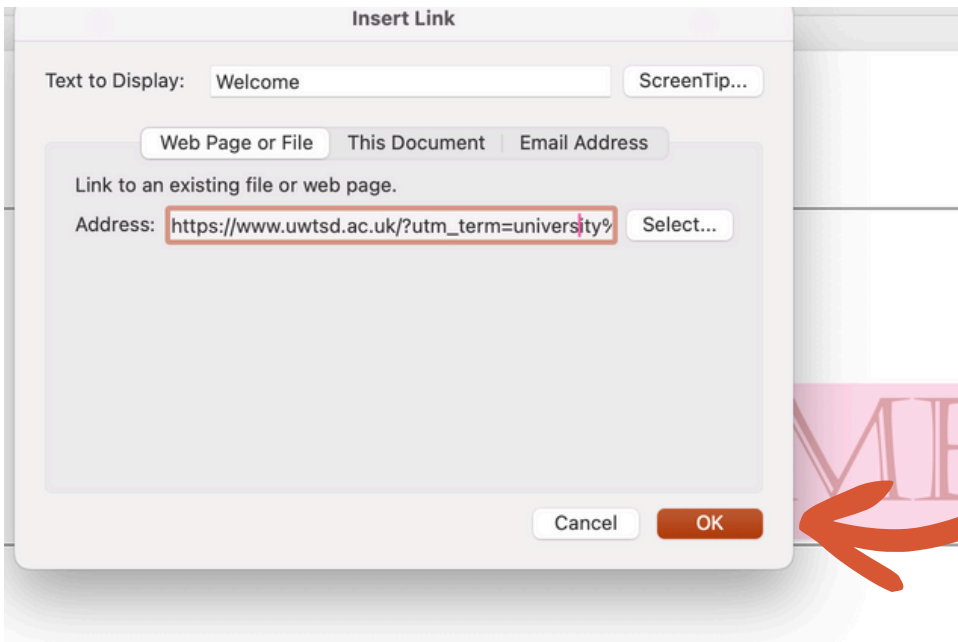

4

Insert The Link
Click OK to Confirm

**Test Your Links to make sure
everything is working**
Press F5 to start the slideshow
and click the linked item.

Hyperlinks make your presentation
more interactive and easier to navigate.
