

How to insert hyperlinks in PowerPoint presentation

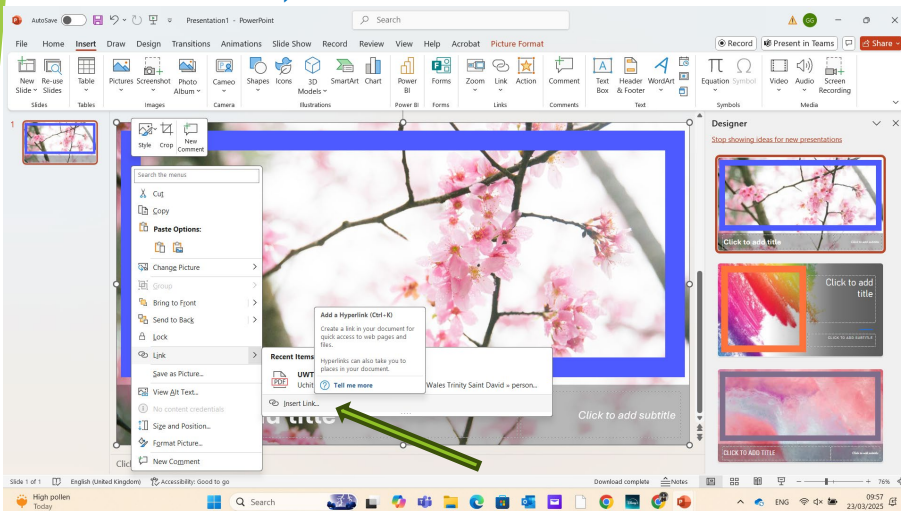

- 1) Load Microsoft PowerPoint
- 2) Click on **Blank Presentation**

- 3) Go to '**Insert**' and choose from one of the designs.

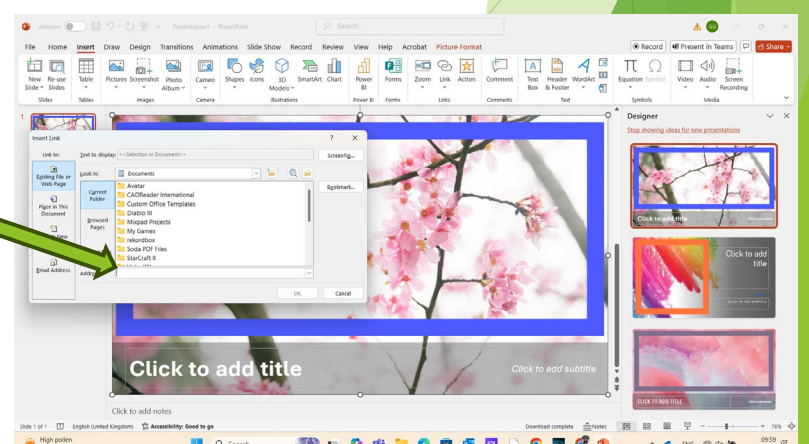

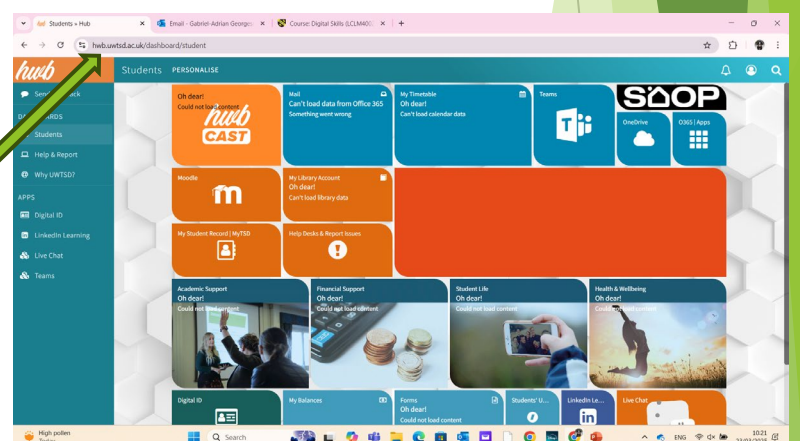

- 4) Mouse Right click on your content
- 5) Click Insert link

- 6) Go to the desired link, mouse right click and **press copy**.

- 7) After, mouse right click in the box and **paste** the copied link.

- 8) Press **ok** and your link is added.

In the title of the poster, included there is a **link with a video** for a better understanding.
