

Module Title: Psychology in Health and Social Care

Module Number: BMHP4019

Component 2 – Written Assignment (Case Study) 1500 words

Before reading this guidance, you should consult a copy of the full assignment brief for Component1 which is available on Moodle in the 'Assignment Specification' folder.

Title Page	All of your submissions must include a title page that clearly states your name, your student number, the module code and title, your lecturer's name, and your assignment title. The words in this section do not count towards your word limit.
Contents Page	List the different sections of your report with corresponding page numbers. The words in this section do not count towards your word limit.
Introduction (100-150 words)	This section should introduce your reader to the content of your report, briefly stating what will be discussed and the context. Here you may also highlight key literature, theories or models that you will be discussing within your work.
The possible causes for the aggression observed from the service user. (500-600words) Include at least four citation to relevant information sources.	Within this section include information about why each person may have behaved in the way that they did. Consider the context of this individual and what may affect their self-concept and self-regulation. Relevant theories. • Erikson's Theory of Psychosocial development. • Maslow's Hierarchy of Needs. • Carl Roger's Humanistic Approach. • Social Identity Theory • Theories of Aggression. • Attribution Theory • Self-serving bias • Theory of planned behaviour. Diagrams and images can be used.
The importance that attending counselling may have for the service user. (200-250words) Include at least two references	This section requires some independent research – is counselling beneficial? Does it aid to prevent suicide and support those with depression or anxiety? Do patients with MS benefit from counselling? Try to include a piece of referenced data or statistics with your work.

What training may be required to aid the staff member. (300-400words) Include at least two references	Make recommendations on key points for development or understanding the staff member needs to develop. Relevant theories. • Social Identity Theory • Theories of Aggression. • Attribution Theory • Self-serving bias • Theory of planned behaviour.
Conclusion (100-150words)	Summarise the possible causes for aggression and the recommendations for staff training. Conclude the key theories that are important for those working in health and social care to be aware of.
Reference Page	All information sources should be listed in Harvard Style with a full reference for each. References should be organised in alphabetical order. You should have used a minimum of eight credible and reliable sources of published information. The words in this section do not count towards your word limit.
