Introduction

Main Body

Task 1: Essential Academic and Employment Skills for the future career Path:

I am in to this course because my future job position will be a ambassador of the United Nations, it was the reason why I am at this university because is now on in track the new international law that is everything will be under the supervision of the satellite.

Task 1 (a): Report on Essential Academic and Employment Skills:

On mind map, I presume is trying to help other students and if possible even using by my intelligence and can happen we find something else that can making the world a better place. For me, on my mind there is a issue, is once His Majesty send me for to do this course, automatically I put my mind working for trying to find something else for better, and I believe in future the satellites they can read our mind's using by magnetic resonance and I believe will be easy to detect who need psychological advice for a better life and will be better for the police find the criminals.

Task 1 (b): Evaluation of Task 1 (a) based on Similarity report:

In future the on-board computers of the cars will be much more developed, I believe that once in today we have drones, later in future we will have ambulances for emergency by air able to land in a narrow street.

Task 2: Collaborative Mind Map and Individual Poster

Mind Map (Collaborative)

On my idea, people who suffering example Huntington diseases and or autism can happen that someone can develop for example a cap like a swimming cap that we can put this cap

on the skull of the patient and using by this cap we can even read by text what do the patient thinking about when see, ear or feel something.

Poster (Individual)

Task 3: Virtual Collaboration and RefWorks:

Report on Virtual Collaboration

Put your Chosen topic here

Step-by-step process of using RefWorks with visuals

Task 4: E-Portfolio Creation and Evaluation

Task 4 (a): E-Portfolio Creation

Task 4 (b): Illustrative Review of E-Portfolio tool Selection

Conclusion:

The text I typed was from my own experience, I went in some special school when I was young and during all my life I was learning how can technology can change for better our lives.
