

## Pirate Frank Treasure Map Activity!

- To start with, your child could look at the Pirate Frank treasure map, discussing the different landmarks on the map e.g. volcano, swamp, forest etc.
- Explain to your child that they could have a go at designing their own treasure map and they need to think carefully about what is on their island, for example a waterfall, mountain, ice etc. Your child could list what landmarks they would like to include on their treasure map.
- To help make your child's treasure map look authentic, you could try the tea bag trick [as seen in the instructions >>]
- Once your child has listed their islands landmarks & their paper is dry, they could begin to draw their treasure map (remembering to draw their chosen landmarks & marking out the route to the treasure which is marked with a cross!)
- After your child has drawn their map, they could revisit the use of adjectives. Explain adjectives are describing words and some are used in the story 'The Treasure of Pirate Frank' to describe the landmarks on the island e.g. snowy and cold.
- Ask your child to choose one of the landmarks on their treasure map that they could write a sentence about, using adjectives to describe the setting for example, slippery ice/ gigantic waterfall!! Your child could draw a picture on the template below and then write the accompanying description.

If ye keep yer map safe, yer treasure will be safe too!

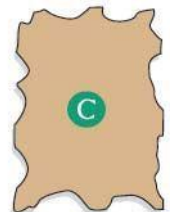

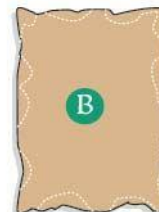

### Instructions

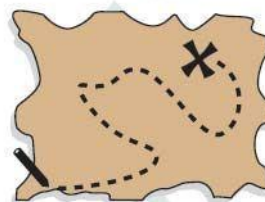

1. Take a sheet of blank paper and a damp tea bag and rub the tea bag against the paper so that the tea will stain it brown. Do this until the paper is nearly soaked.

2. Gently crumple up the piece of paper and set aside to dry.

3. Once the paper is dry, unfold it and tear off small pieces along the edges. The tea stains and the torn edges will make the paper look old.

4. Use a black marker to draw the location of the buried treasure (don't forget to mark with an X) and some of the landmarks surrounding it.

A description of my treasure island:
