Introduction

- **In academic period, every student gather various skill, experience and knowledge, which play an effective role to professional life.**
- **The success of professional life verily depends on best performance in the academic life.**

Learning in academic period

Every student gather different quality and characteristic during academic period.

As a student I also have learned different quality like- hardworking, situation handle, communication, time management and leadership quality which make me confident to work any prominent business company in the marketplace.

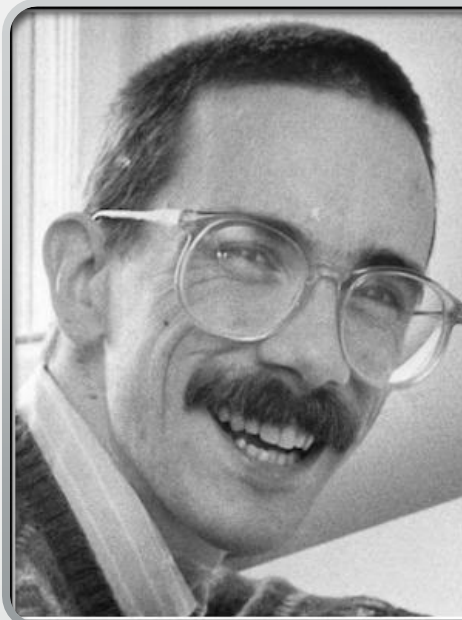

SWOT analysis for my personal evaluation and application those to my professional sector

- SWOT analysis indicates strengths, weakness, opportunities and threats.
- After SWOT analyzing I can understand the application my skill, experience and lacking in my professional life.

Strengths in my learning period

- In my learning period, I had different strengths quality like- good speaking, communication, leadership, situation handle and hardworking quality which will play an effective role for my academic and professional success.

I'm learning skills I will use for the rest of my life by doing homework...procrastinating and negotiation.

— *Bill Watterson* —

AZ QUOTES

Weakness in my learning period

- In my academic period, I had different weakness, which made me less confident and disappointed for my career success.
- Some weakness in my academic period can be such as- public speaking, presentation skills and poor IT knowledge but I tried to improve those skills for my academic and professional success (phadermrod&other2019).

Opportunity in my academic period

- Every student has different opportunities in study and learning period.
- As a student I also have different opportunities like- Technological support, good managing committee and legal activity in learning period.

Threats in my academic period

Every students have to face different problems and threats in academic period for performing different action.

As a student, I also have to face different threats like- physical illness, poor financial support and other factors, which negatively impact to my academic life (verboncu&condurache2016).

Time management tools for analyzing my academic period and application those to my professional life

- Time management is essential for every student to academic and professional success.
- Every student follow different strategy and policy for ensuring an effective time management to study period.

Make time plan for whole work

- In my academic period, I tried to follow my daily schedule and routine for performing whole action before desired time.
- I distributed, my whole action, in different time, and try to perform those actions, according to my time schedule (hazar2014).

Work from a list and importance on time

In my academic period, I also used to make a short list to my daily work and try to perform action according to my list.

I never waste any time because I verily concerned that the academic and professional success verily depends on effective management of time (rigby&bilodeau2011).

Conclusion

Every student gather different quality and characteristic for academic and professional development (collet&other2015).

The professional success of any student verily depend on better performance in academic life.
