

Basic Digital Safety

Safety at Home

HOME SAFETY CHECKLIST

- CHILD'S BEDROOM**
 - Blind and curtain cords 1.5 metres above the ground.
 - Cot meets Australian Standards.
 - Furniture placed away from windows.
 - No items in cot when putting baby to sleep.
- KITCHEN**
 - Dangerous objects locked up and away (e.g. knives, matches, lighters, medicines).
 - Stable high chair with harness.
 - Appliances out of reach.
 - Back hot plates used first and pot handles turned towards the back of the stove.
 - Hot food and drinks out of reach of children.
- BATHROOM & LAUNDRY**
 - Bath water temperature always tested before use.
 - Hazards locked up and away (e.g. cleaning products, razors, electrical appliances).
 - Restrict access to the bathroom and laundry when not in use.
 - Empty sinks and baths after use.
 - Keep appliance doors closed (e.g. washing machine).
- LIVING ROOM**
 - Sharp edges of furniture covered.
 - Follow age recommendations for toys.
 - Use gates and barriers on stairs.
 - Place toys where children can reach them to stop them from climbing.
 - Use barriers around heaters and fires.
- OUTDOORS**
 - Swimming pools have a barrier with a self-closing, self-latching gate.
 - Empty paddie pools after use.
 - Separate children's play space from the driveway.
 - Look tools and appliances up and away out of reach.
 - No poisonous plants in the garden.

GENERAL HOME SAFETY

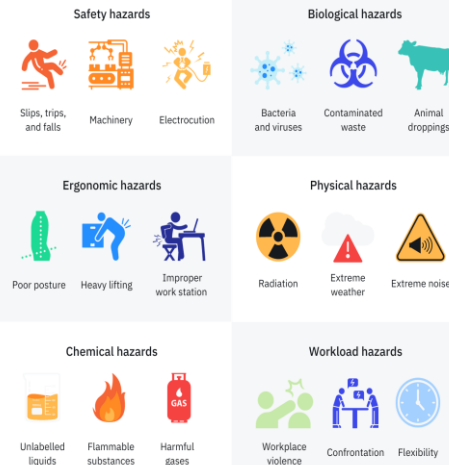

- Electrical safety switch installed.
- Working smoke alarms.
- Hot water delivery temperature set to 50°C.
- Power point covers on unused power points.
- Top heavy furniture and TVs secured to the wall.

Safety at Work

Six types of workplace hazard

Understanding workplace risk...

Risk assessments are essential to determine the type and severity of threats your employees face whilst at work. Appropriate steps should then be taken to reduce or eliminate harm

Safety at Public Place

Safety in public places

The killing of 26 people in a rural Texas church is just the latest mass shooting in a public place. In recent years, mass killings have occurred at concerts, movie theaters and schools. These shootings raise questions about how safe public spaces are.

Schools and churches	Places of business	Entertainment venues
 2015 - Umpqua Community College Roseburg, OR - 9 killed 2008 - Northern Illinois University School DeKalb, IL - 6 killed 2007 - Virginia Tech University Blacksburg, VA - 32 killed	 2012 - Accent Signs Systems Minneapolis, MN - 7 killed 2006 - Postal facility Goleta, CA - 6 killed 2000 - Edgewater Technology Inc. Wakefield, MA - 7 killed	 2016 - Pulse Night Club Orlando, FL - 49 killed
 2017 - First Baptist Church Sutherland Springs, TX - 26 killed 2015 - Emanuel African Methodist Episcopal Church Charleston, SC - 9 killed 2012 - Sikh temple Oak Creek, WI - 6 killed	 2016 - Cascade Mall Burlington, WA - 5 killed 2007 - Westroads Mall Omaha, NE - 8 killed 2007 - Trolley Square Mall Salt Lake City, UT - 5 killed	 2017 - Mandalay Bay Resort Las Vegas, NV - 58 killed 2004 - Damagopolan Show Columbus, OH - 5 killed
		 2012 - The Dark Knight Rises Aurora, CO - 12 killed
