

GOOGLE ASSISTANT by GOOGLE

Digital Skills and Research Methods
Term 1 Group 2
Module code: BMSW4003_LON
Lecturer: Riaz Bhatti

Students:

- Andrea Pisanti (2111539)
- Attila Kelemen (2123680)
- Md Ashiqur Rahman (2110938)
- Stefan Vanev Kolev (2124578)

Origins Of Google

Larry Page and Sergey
Brin

Founders

From BackRub to
Googolplex to Google

Name

The company Google Inc.
was founded in 1998

Founded

Larry Page (Left) and Sergey Brin (Right)

Garage where Google Inc. was founded

Some Earlier Technologies And Google Assistant

Google News

Google maps

Google Assistant

Google Mail

Google Chrome

How did Google assistant become famous in the last few years?

- This are the ways Google Assistant became more helpful:
- Smart home key: can help you can control your smart home devices.
- It can help you to reserve events or book tables at a restaurant.
- Can be a great companion for cooking and helping you to learn to cook new cuisines by suggesting various recipes.
- Google Assistant can give you suggestions when you open your phone.

What did Google company do before creating google assistant?

1. The oldest part of Google Assistant is Google Search.
2. The tone of voice and command system on “Ok Google” changed the world.
3. In August, this audio search engine was changed with Google Assistant on the iOS versions of the Google app.
4. There was Google’s voice button on Android smartphones, and this was replaced with Google Assistant. The voice search shortcut generates by saying "OK Google", the microphone button on the home screen widget, and the microphone button within the Google app itself.

How voice technology is helpful and related to Google assistant?

- There are five insights on voice technology:
- Voice is about activity (when you hear of Google assistance you immediately think of 'help').
- Google assistance can help you with different types of commands like "switch off the lights" and "turn on the lights"
- People expect discussions (when they start using voice assistance, they start with simple commands but very quickly).
- Screens change (So, when you ask for a cake recipe, you can get images of what the cake should look like while the Assistant reads you the steps along the way.)

**What are the
Google Assistant
Impacts on our
lives?**

Positive Impacts

Google assistant can offer voice searching, voice commands and voice-activated device control.

Google assistant can promote significantly the willingness to communicate (WTC) of the EFL learners, which influences improve communicative confidence and decrease anxiety about speaking.

The virtual assistant is more conversational and adept at understanding contexts compared to Alexa and Siri.

The AI becomes more personalized the more we use it

Negative Impacts

The negative impact of google assistant is that it has required users to give access to a lot of data.

The google assistant can't work without an internet connection and can't support all languages properly

Outcome

After analysing the above report it can be concluded that the research has defined the impacts of the advanced technology of the google assistant that can influence social life in different ways and also make people's life easier or harder based on the usage that we do of it.

Conclusion

The possibilities in the google virtual assistant are endless.

let's just think about how many smart devices there are in our home

How easy it is to
handle and does not
distract you while
driving

Smart homes are prevalent that are changing our lives.
Let's take a look at a few smart devices that are
compatible with the google assistant!

Technology is evolving day by day.
The google virtual assistant helps us keep all of this and
provides up-to-date information

In today's world, we need google virtual assistants to manage our many smart devices as quickly and efficiently as possible, saving a lot of time and energy.
