Comments:

Good, natural presentation style.
Good quality slides with useful
images etc at start, could have included more
Aim & objectives? Partly answered in ^{later} Q & A.
Review of existing survey apps shows
thoughtful evaluation.
Android / IOS comparison could have been
widened to usability / dev. environments (but
kept brief). WiFi / Bluetooth perhaps too much
time on basic facts. ~~Also~~ What does NFC stand for?
Maybe a table to compare comms. In your report
be sure to justify choices without so much
emphasis on your personal preferences.
How did you discover requirements? Will you
have time to fully apply TDD? Plan activities
presented - Gantt chart / test would be an
improvement.
