

Installing Panopto Desktop App on your Laptop

Step 1. Log into the web version of Panopto at <https://uwtسد.hosted.panopto.com> using the UWTSD Moodle login option.

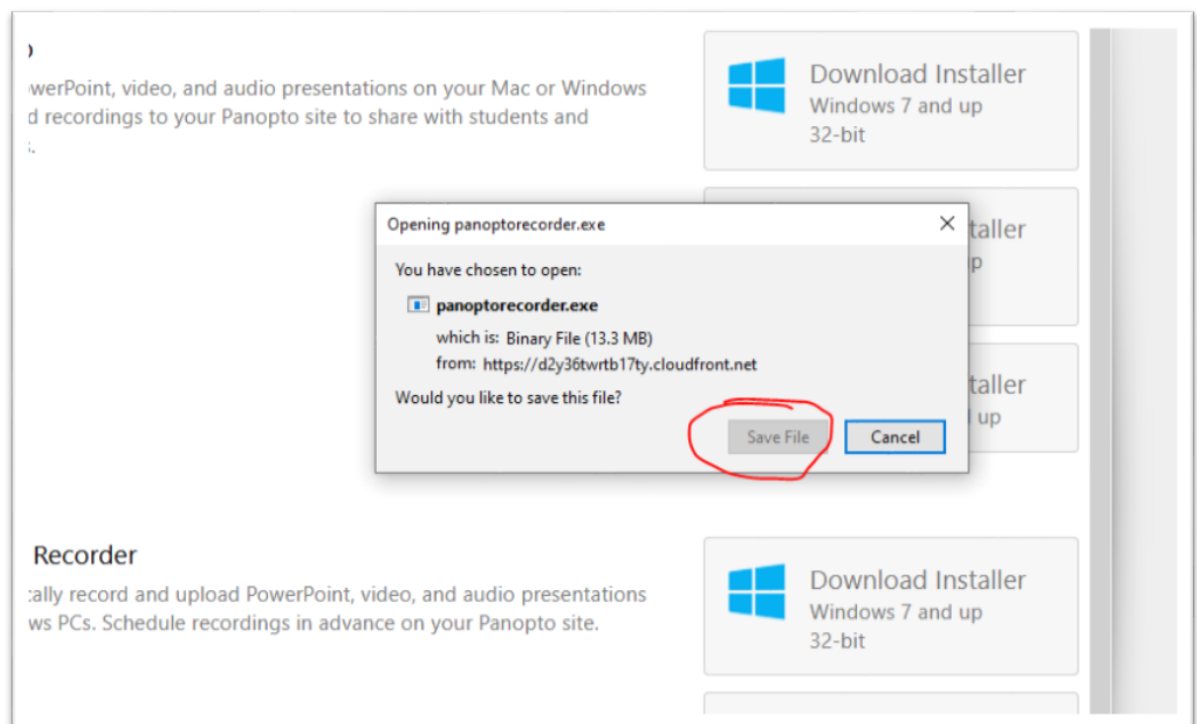

Step 2. Download the installer: Click on the Download Panopto button in the top right corner:

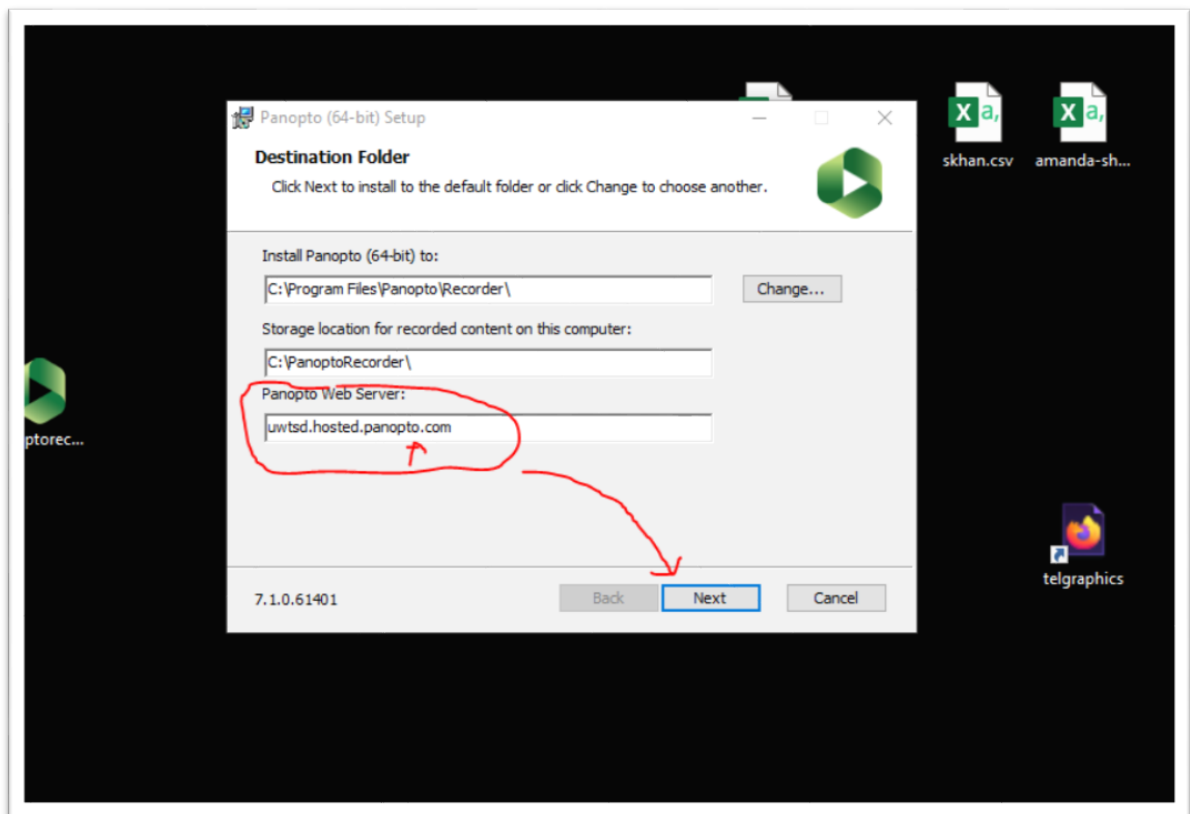

Step 3. Save the app installer to a folder you can find on your device (Documents, Downloads or Desktop maybe):

Step 4. Locate the installer in the folder you saved it to and double click it to run it.

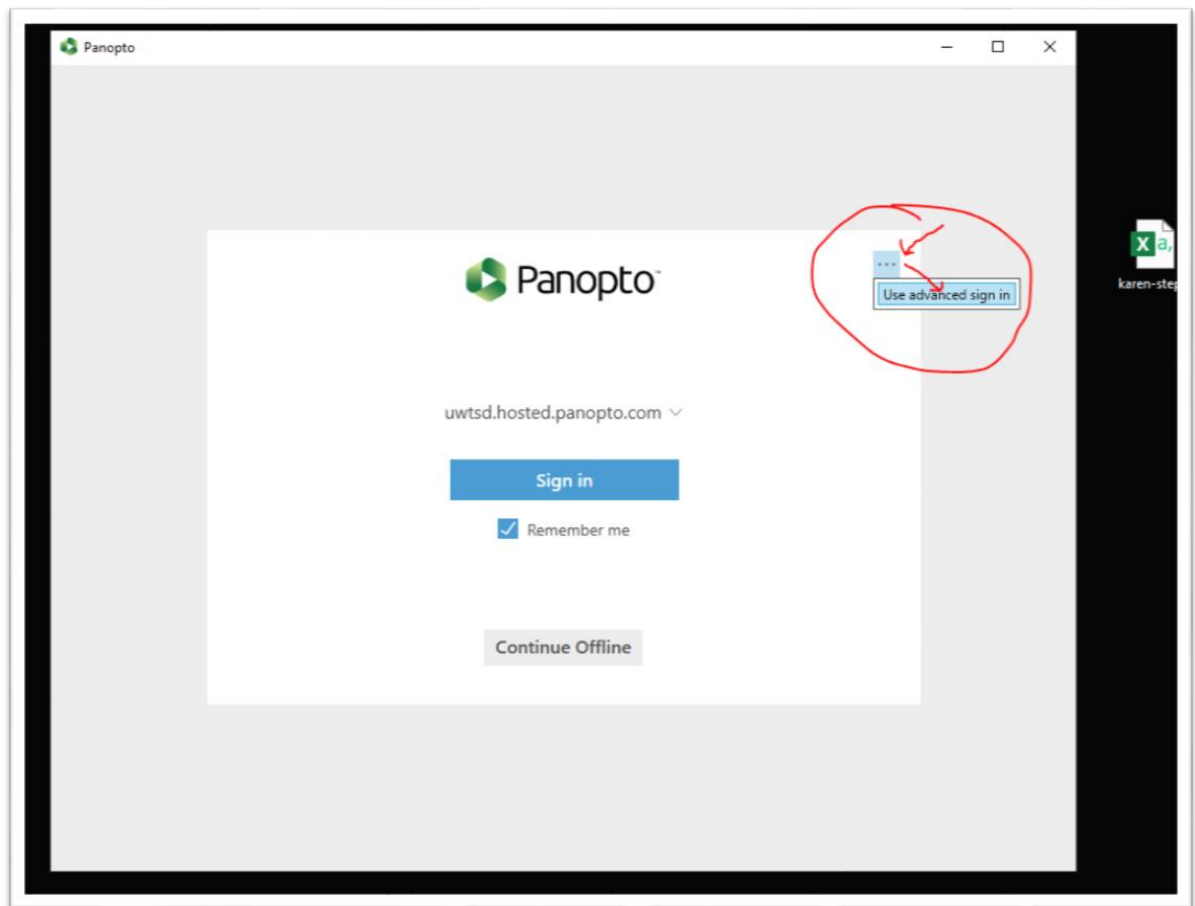

Follow the instructions that appear to install the app. In the box shown below type in the following - ***uwtsd.hosted.panopto.com*** then click ***Next*** and then ***Install*** on the next window.

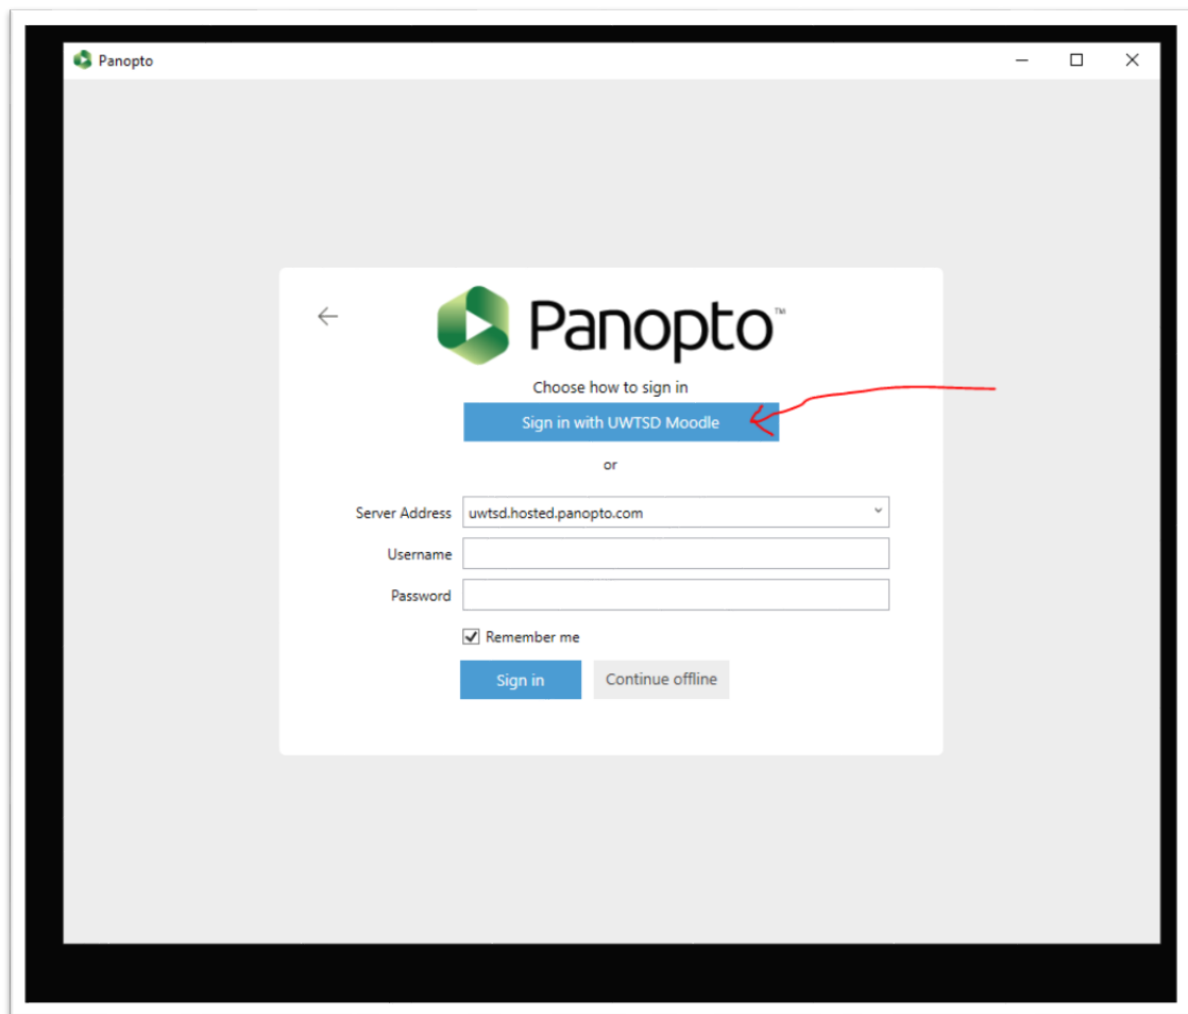

Step 5. Once it is installed, Panopto should automatically start but if it doesn't, double click the

Panopto icon that appears on your desktop to start the it. The first time you log in you will need to select the 'Use advanced login' option by clicking the 3 dots as shown below:

Step 6. And then select the Sign in with UWTSD Moodle option. Enter the login details you use for Moodle and Panopto will start and you can begin recording.

Lastly, here are some links from the TEL Resource Centre for using Panopto with Moodle:
