

Dreamweaver Div's

Dreamweaver CS5

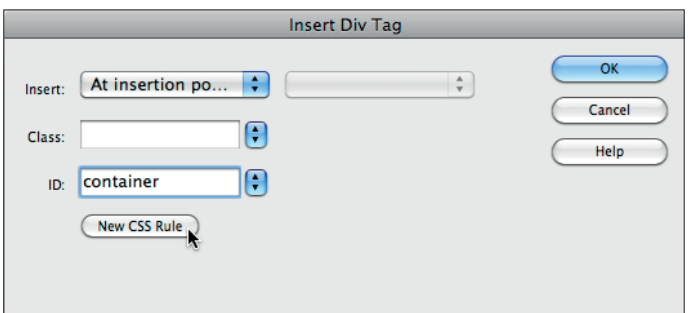

Notes by Gavin Kirby

Creating Div's in Dreamweaver.

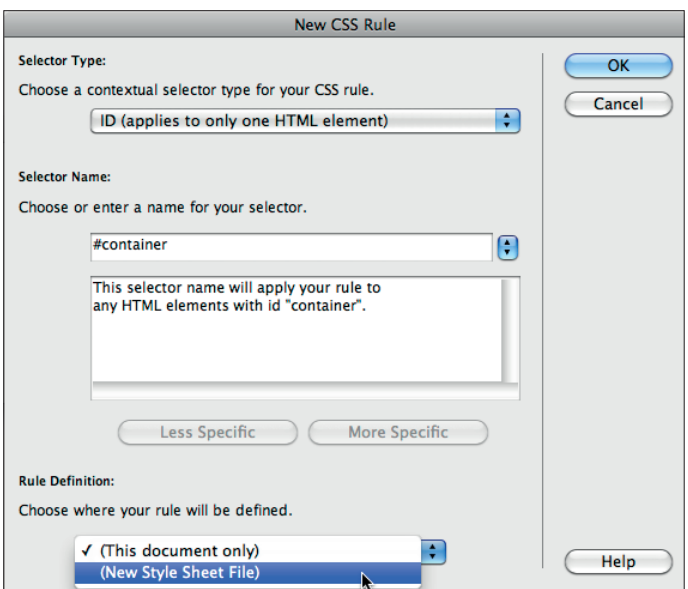

1. Click on the *Insert Div Tag* button. If this is not available you can go to *Insert - Layout Objects - Div Tag*.

2. In the *Insert Div Tag* window create an ID called *container*. Then click *New CSS Rule*.

3. The *New CSS Rule* window allows you to choose what type of selector you want to use (eg. ID Selector). You can either have the CSS added to the head of the html document by selecting (*This document only*) or you can choose to create a new CSS file by choosing (*New Style Sheet File*). Click OK.

The CSS style that you have just created is visible in the *CSS Styles* palette to the right of your screen.

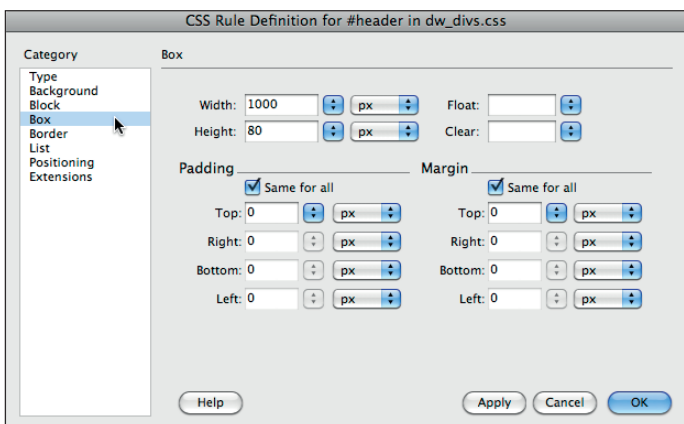

7. Click inside the Div and remove the place holding text (*Content for id "container" Goes Here*).
8. Click on the *Insert Div Tag* button. If this is not available you can go to *Insert - Layout Objects - Div Tag*.
9. In the *Insert Div Tag* window set *Insert* to *After start of tag* and choose `<div id="container">` from the menu.
10. Add *header* to the ID and click *New CSS Rule*.

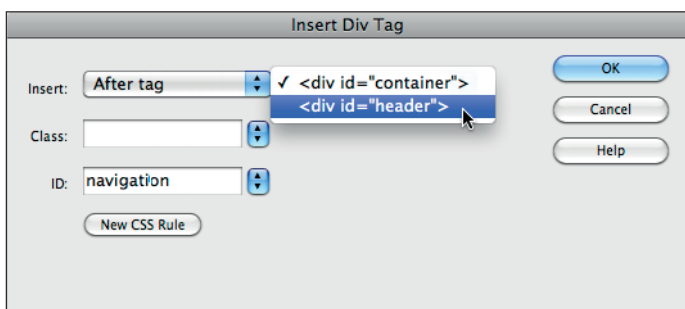

11. Choose to add the new CSS style to the CSS file you are using. Click *OK*.

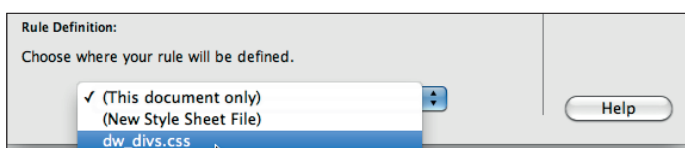

12. Set a Background colour and then set the Box sizes as shown below. Click *OK*. Click *OK* again.

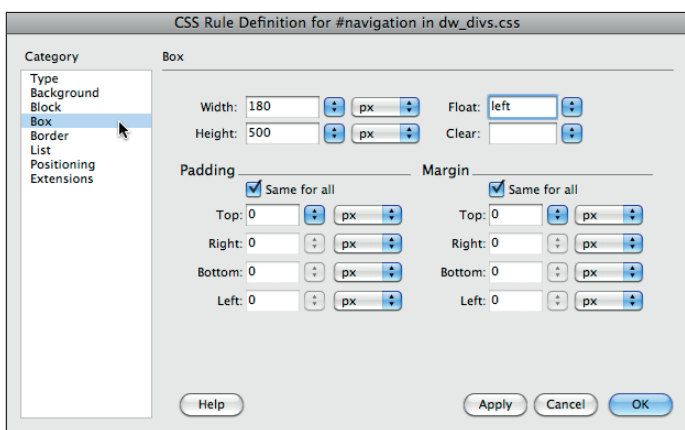

13. Click on the *Insert Div Tag* button. If this is not available you can go to *Insert - Layout Objects - Div Tag*.
14. In the *Insert Div Tag* window set *Insert* to *After tag* and choose `<div id="header">` from the menu.
15. Add *navigation* to the ID and click *New CSS Rule*.

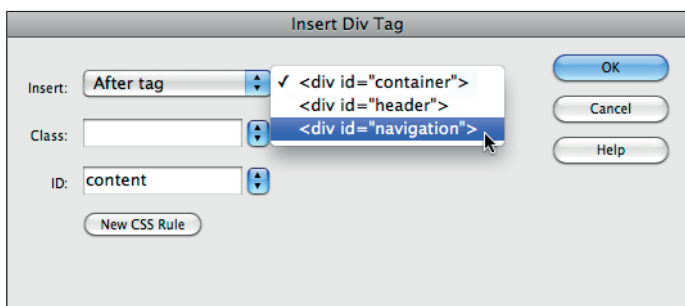

16. Choose to add the new CSS style to the CSS file you are using. Click *OK*.

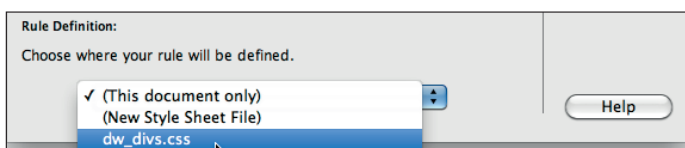

17. Set a Background colour and then set the Box sizes as shown below (note: Float left). Click *OK*. Click *OK* again.

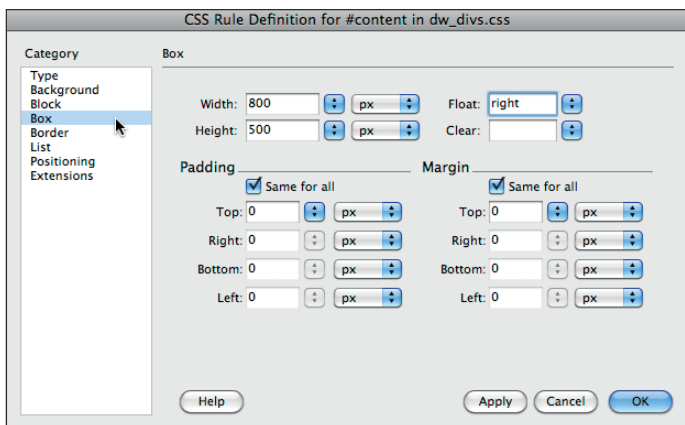

18. Click on the *Insert Div Tag* button. If this is not available you can go to *Insert - Layout Objects - Div Tag*.
19. In the *Insert Div Tag* window set *Insert* to *After tag* and choose `<div id="navigation">` from the menu.
20. Add *content* to the ID and click *New CSS Rule*.

21. Choose to add the new CSS style to the CSS file you are using. Click OK.

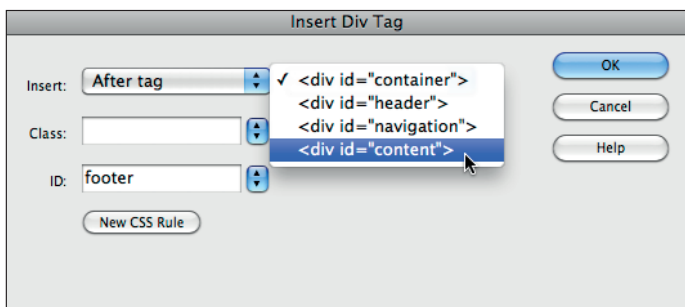

22. Set a Background colour and then set the Box sizes as shown below (note: Float right). Click OK. Click OK again.

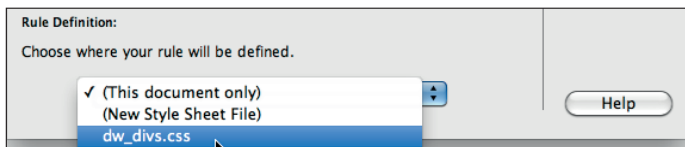

23. Click on the *Insert Div Tag* button. If this is not available you can go to *Insert - Layout Objects - Div Tag*.

24. In the *Insert Div Tag* window set *Insert* to *After tag* and choose `<div id="content">` from the menu.

25. Add *footer* to the ID and click *New CSS Rule*.

26. Choose to add the new CSS style to the CSS file you are using. Click OK.

27. Set a Background colour and then set the Box sizes as shown below (note: Clear both). Click OK. Click OK again.
