Healing and Repair: Transforming Traumatised Communities

In this sixth webinar, the speakers will present their experiences and perspectives drawn from decades of work for narrative change, racial healing, trustbuilding, and systemic shift in the USA and internationally. They will highlight that only through multi-dimensional efforts and collaborative processes can traumatised communities embark on collective journeys aimed at transcending structural barriers while fostering true transformation.

Dr. Gail C. Christopher is the Executive Director of the National Collaborative for Health Equity and an award-winning social change agent with expertise in the social determinants of health and well-being and in related public policies.

Rob Corcoran is a trainer, facilitator, writer, and racial healing practitioner. He has led workshops and spoken on building trust across racial, class, political and religious divides in many US communities and in Asia, Africa and Latin America.

Following their presentations, the speakers will engage in a dialogue on the emerging themes, and respond to questions from the audience.
