

Moodle Resource Insert external link (URL)

What is an URL?

The URL (Internet Address) module enables a teacher to provide a web link as a course resource. Anything that is freely available online, such as documents or images, can be linked to with an URL.

Step 1: On your Moodle page left click **Turn editing on**

Turn editing on

Step 2: Left click *Add an activity or resource*

Add an activity or resource

Step 3: In the *Add an activity or resource* window, Left click the URL radio button

Step 4: Left click *ADD*

Add

Step 5: In the *Adding a new URL* window, complete all details with an asterisk *
Type or paste the URL into the *External URL box*.

External URL*

Display Options: In the Appearance tab, under Display **Embed** will include linked content on your page.

Same pages will block this

Open will open the link in the same window

Readers need to use the back button to return to Moodle

In Pop-up opens the link in a new smaller window.

This can be resized by readers.

Step 6: Left click *Save and return to course*

Save and return to course

Step 7: On your Moodle page left click **Turn editing off**

Turn editing off
