

Paraphrase 1

Businesses which support employee wellbeing often experience lower staff turnover.

Remember!

Effective paraphrasing is a combination of paraphrasing techniques!
Changing only a few key words still keeps the majority of the paraphrase the same!

Paraphrase 2

Managers who communicate clearly can help reduce stress in the workplace.

Remember!

Effective paraphrasing is a combination of paraphrasing techniques! Changing only a few key words still keeps the majority of the paraphrase the same!

Paraphrase 3

High levels of workplace stress can reduce employee productivity.

Remember!

Effective paraphrasing is a combination of paraphrasing techniques! Changing only a few key words still keeps the majority of the paraphrase the same!

Paraphrase 4

Regular staff training can reduce mistakes and improve the quality of employees' work.

Remember!

Effective paraphrasing is a combination of paraphrasing techniques!
Changing only a few key words still keeps the majority of the paraphrase the same!

Paraphrase 5

A shop may order more stock than it can sell. Unsold products can increase business costs.

Remember!

Effective paraphrasing is a combination of paraphrasing techniques!
Changing only a few key words still keeps the majority of the paraphrase the same!

Paraphrase 6

Some cafés experience a large increase in customers during lunchtime. Managers may respond by scheduling additional staff to maintain quick and efficient service.

Remember!

Effective paraphrasing is a combination of paraphrasing techniques! Changing only a few key words still keeps the majority of the paraphrase the same!
