

INTRODUCTION

- Justification for the Study
- Theoretical and Practical Contributions
- Objectives of the Study
- Research Questions
- Hypothesis
- Business / Societal Problems Addressed in This Study

Background to the Research

- The Role of ????
- Challenges Facing ?????
- The Need for ????
- Bridging the Research Gap

KUHN'S PARADIGM – THE Kuhn Cycle in ???

A. Implications of the Paradigm Shift in ????

- Normal Science: The Traditional Leadership Paradigm in ???
- Emergence of Anomalies: Challenges to the Traditional Model
- Crisis Stage: The Demand for Leadership Agility
- Scientific Revolution: The Shift to Agile Leadership
- New Normal: Agile Leadership as the Dominant Model
- Conclusion: The Significance of the Paradigm Shift

B. Challenges in Implementing the New Paradigm of ?????

- ??
- ??
- ??

C. Relevance of Kuhn's Paradigm – The Kuhn Cycle to the Context of Research

- Normal Science: The Dominance of ????
- Emergence of Anomalies: Recognition of Inefficiencies in ????
- Crisis Stage: A Shift in Research Focus Towards ????
- Scientific Revolution: The Development of a New Research Paradigm
- New Normal: Establishing ????
- Implications for Research in ????
- Conclusion

III. RISING ACTION

A. Research Approach

- Justification for the Mixed-Methods Approach
- Qualitative and/or Quantitative Approach
- Conclusion

B. Methodological Strategies

- Research &/or Quantitative Methodological Strategy
- Justification for Methodological Strategies
- Conclusion

-

C. **Sample Population and Sample Frame**

D. **Sampling Method**

- Qualitative Sampling (Purposeful Sampling) & /or Quantitative Sampling (Stratified Random Sampling)
- Conclusion

IV. **CLIMAX**

A. Personal Reflection on Preparation

B. Evaluation of Portfolio Content

- Literature Review
- Theoretical Framework
- Research Methodology
- Ethical Considerations
- Data Collection and Analysis
- Challenges and Limitations
- Implications and Contributions
- Conclusion

V. **DENOUMENT**

- Impact on the Ultimate Research Proposal ???
- Resolution of Contradictions/Challenges in the ???

Overall Research Plan

- Resolution of Contradictions in Research Paradigms (Qual vs. Quants approaches)
- Addressing the Challenge of Defining Key Concepts (????)
- Managing Ethical Considerations and Research Biases
- Overcoming Data Collection and Access Challenges
- Aligning the Research with Institutional and Societal Relevance
- Refining the Theoretical Framework
- Strengthening the Research Design and Data Analysis Plan
- Conclusion

VI. **NEXT STEPS**

- Final Thoughts
- Conclusion

VII References

VIII Appendices

- If any??
