

INTRODUCTION

AIMS AND OBJECTIVES

Making sure that the best care is given and the best outcome is achieved.

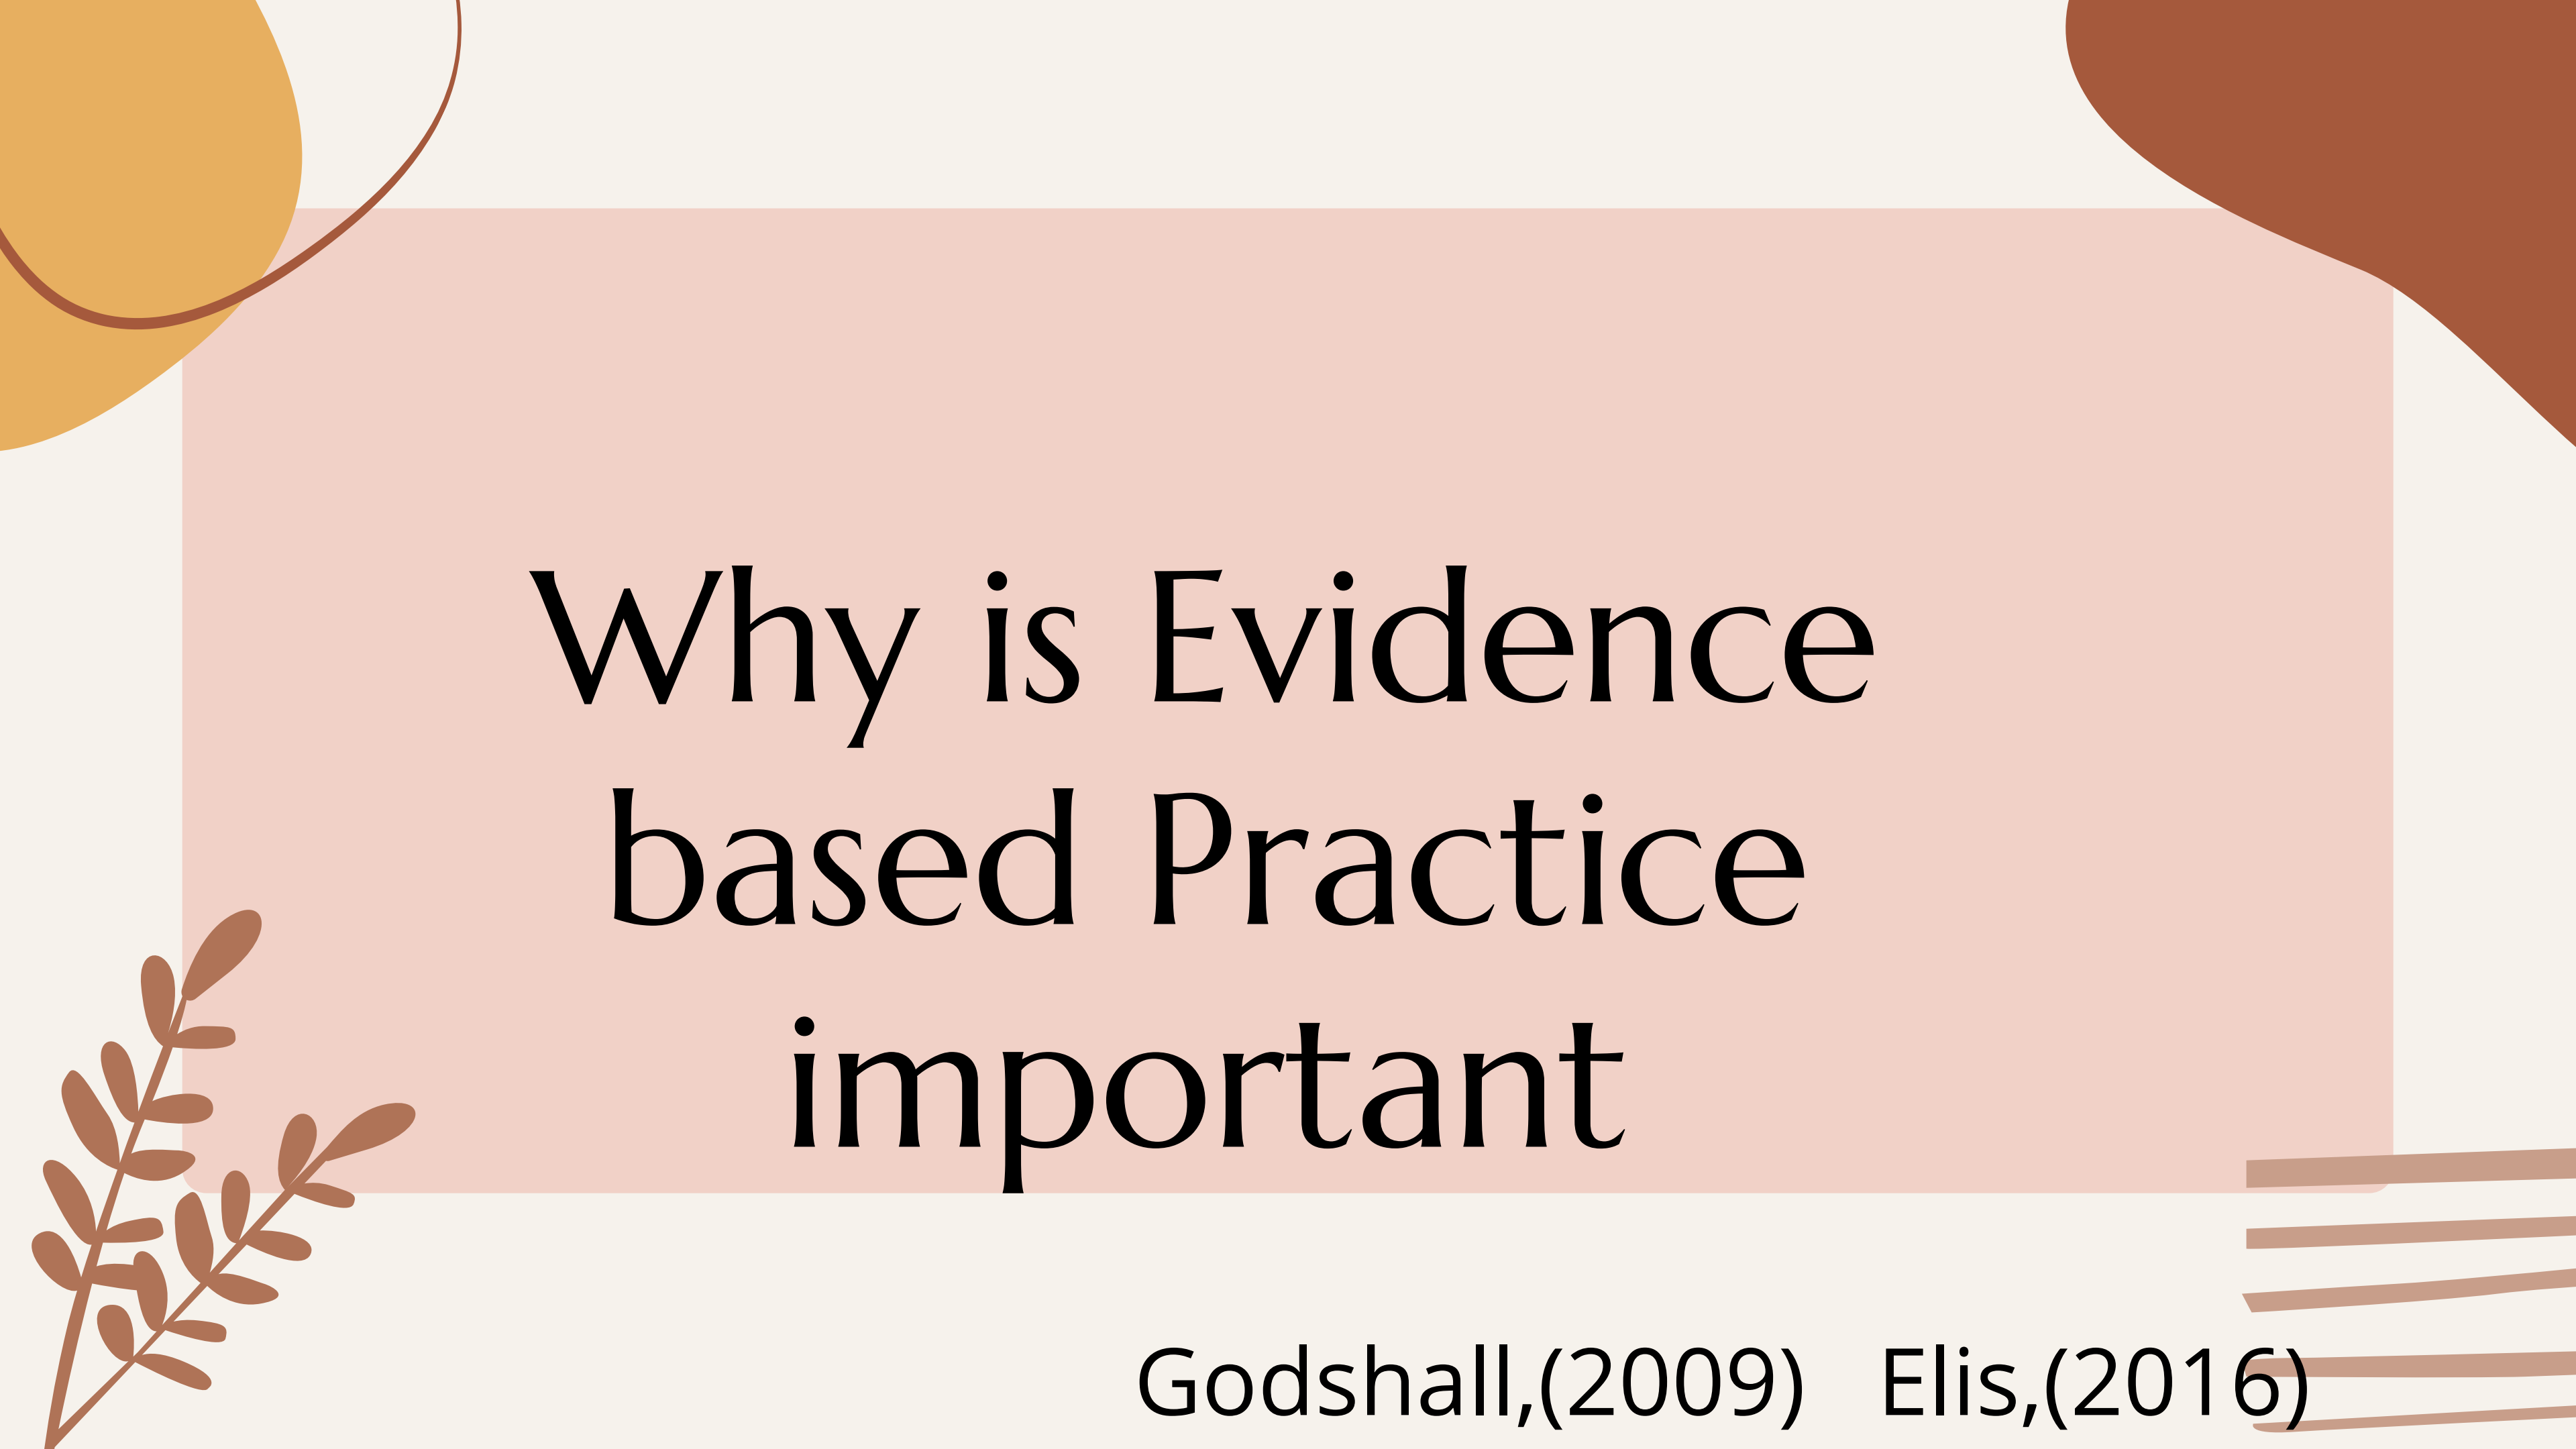

Reflecting on how to do things better.

Melnyk and Overholt,(2019) Pearce-Smith and DE Brun,
(2014)

What is Evidence Based Practice

Sackett et al,(2001)
Guyatt, 1991 Polit and Beck,(2008) Black, (2015)

Why is Evidence based Practice important

Godshall,(2009) Elis,(2016)

**WHAT SECTORS USE
E.B.P**

A few examples

Nurses

Education

Police

Social services

Davies, Nutley and Smith,
(2012)

What are the advantages of E.B.P

Trinder and Reynolds, (2000)

What are the disadvantages of E.B.P

Giddens, (1994)

Evidence based Practice within a care work setting

Dawson, (2003)

Paton, (2021) Sopirala, (2014)

Infection control 2020 when covid hit the UK

How things changed within the work setting

Abbasi,(2020)

**Working on my own initiative
and pulling together as a
team, to help keep the people
we support safe**

Critical thinking.

thoughts can influence the way in which situations are dealt with.

Having the ability to apply skills.

Analyse a situation to see if its the best practice.

Roberts, (2015)

Conclusion
