

#MeToo Movement

A social movement against sexual abuse and sexual harassment where people publicize allegations of sex crimes. Sexual harassment survivor and activist Tarana Burke initially used the phrase “Me Too” in this context on social media in 2006, on Myspace. Similar to other social justice and empowerment movements based upon breaking silence; the purpose of "Me Too" as initially voiced by Burke, as well as those who later adopted the tactic, is to empower women through empathy and solidarity through strength in numbers. Especially young and vulnerable women, by visibly demonstrating how many women have survived sexual assault and harassment, especially in the workplace.
