Phase Swap

Key Dates:

PGCE – 1st & 2nd Feb

BA3 – 18th & 19th April

Rationale

The Phase Swap is a non-assessed professional development opportunity that allows student-teachers spend time exploring practice in an alternative phase to that which they are training in. i.e a Primary or Secondary School.

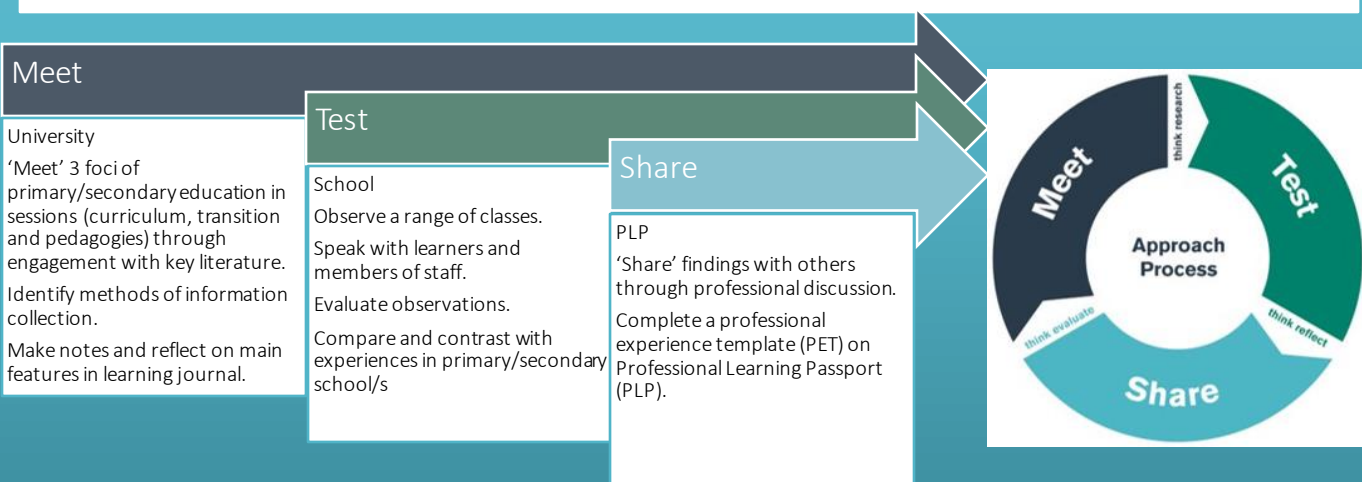

Arrangements

The foci of phase swap are:

- Curriculum design
- Points of Transition
- Pedagogical approaches

Student teachers will attend a Primary or Secondary school within or close to their network where possible.

Reflection and QTS

Student teachers are expected to reflect on the experience and complete a Professional Experience Template (PET) on their Professional Learning Passport (PLP).

Assets evidencing the phase swap should be linked to the PET. This could include notes, ppts, handouts, readings, timetable, schedule etc. The PET should also be linked to appropriate or relevant QTS standards.

Examples of relevant QTS Standards

Pedagogy – Advancing Learning – Four purposes for learners, Progression in learning, cross-curricular themes.

Pedagogy – Refining Teaching – Managing the learning environment, involving partners in learning.

Professional Learning – Professional networks and communities, Wider reading and research findings.
