

# BASIC DIGITAL SAFETY

Don't let anyone  
fool you!

## **Always set a strong password that includes numbers**

Never put your last name or year of birth in your password, it's easy to guess

## **Do not give your information to anyone online**

Many scams are done online, be careful and be careful

## **Online shopping**

In many cases we enter online shopping pages that are fake, that's why it's good to check twice before buying

## **Fake messages on the phone**

You may often receive messages from certain companies as if you have a request from them to pay something that you do not expect, this may be a scam

## **Unexpected phone calls as if you have a short time to make a payment**

No one will ever call you to pressure you to make a payment by phone, under no circumstances from your bank
