

Delille Ankrah Brief

Delille is a personal friend of mine who I've worked with for over five years as a musician whilst session for a five piece vocal harmony group called MiC LOWRY. This has seen me program and arrange some of the backing tracks for live shows. Delille has been looking to further his career possibly branching into the solo artist realm. We had a conversation in which we decided to work together as he trusted me to lead the session, and work along with another songwriter and guitarist who supported the process as and when needed.
