Digital Safety

Module Name: Digital Skills

Module Code: LCLM4002

Student Name: Ester Buenaventura Tabanao

Student ID: 2336615

Group: 6

Lecturers Name: Almotave Banik

University of Wales Trinity Saint David

(London Campus)

Information Poster

Digital Safety

Digital Safety

It refers to taking protective actions for ourselves and our concerns like family and others connected with us in the digital platform. There are absolved people who want to put their eyes on you and know about your every move (Lindeen, 2016). So, there in protecting my confidential information and reducing the scope of getting involved in any violence, it's very important.

4 C's of Online Safety

Content: There are many kinds of content illegal, harmful, and inaccurate and may posted to create that may impact online use.
Contact: Interacting with other users through harmful online like peer-to-peer pressure, advertisements, adulating posts, etc.
Conduct: There is online behavior that may increase harm like online bullying or explicit pictures etc. (Willard, 2012).
Commerce: There are risks related to online gambling, fake advertisements, and financial scams that may work effectively.

Digital platform do, we have to be concerned

- **Mobile phone:** In our daily life this is the most used tool where we need to be aware of viruses, and malware, which may attack our personal information and digital banking.
- **Computer:** This is our most used tool which related to our professional life and storing all the data where we must be ensuring about the securities about software and any malware.
- **Emails:** In our emails, we have many conversations mostly related to our professional or formal life where we most often attach important files (Richard Joseph Stein, 2019). So, there the hacker has a great intension where we have to be aware of safety and should keep active to the monitoring account.
- **Internet browsing:** This is another important track that records every activity of mine which we should be aware of and need to continuously delete the entire history.
- **Social media:** In our daily lives we have to be concerned about our move to social media where we have to be aware of setting strong passwords and communicating with strangers.

Cost Structure
