

What am I?

How to play / Teaching points

A post it ('stickie') or computer label with a body schooling activity on is placed on each pupil's back.

The pupils move around the hall and on a predetermined cue, pair up. Pupils take it in turns to ask questions that can only have a yes or no answer to them.

Pupils ask one or two questions and then move on. Pupils are trying to guess which activity/action is on their 'stickie'.

Once they think they have guessed, pupils perform the action.

Adapting the activity

Enable

- Give pupils a choice between two contrasting actions, for example Angry Cat and Dish
- Limit the number of actions that the action could be
- 'Stickies' to have pictures and the name of the activity
- Limit the activities to a group of basic actions, for example Rolling or Jumping
- Prompt pupils questioning, for example 'Ask something about which body parts are in contact with the floor?'
- Allow pupils to use module 1 CD Rom or data resource sheets to remind themselves of actions

Challenge

- 'Stickies' to have words only
- Activities/actions could be any that they have covered
- Allow pupils to ask their own questions

Health Related Exercise benefits

- Strength, stamina and flexibility depending on the actions and the duration of the activity
