

Project Proposal – Industrial-Based Project (75%)

Student Mark Williams

Grade

56

Intro / A&O		
Project title; Identification of a specific problem to be investigated; Well-defined aims and SMART objectives; Explaining why this project is worth doing; Discussion of what the project needs to do in order to be a success; Description any deliverables that will be produced at the end of the project <i>Introduction could be a bit longer. There is no practical cybersecurity in the A&O - you need to do some cyber security work</i>	20	10
Literature Review		
Description of how the work to be done by in the project relates to the work identified in the literature review; Discussion of any ethical issues raised by the project Identifying what has already been done within the field; Topic familiarity; Literature review using appropriate sources - journal papers and book chapters rather than just websites; Selection of relevant models & concepts <i>It's better to talk about the main theories than the main researchers. Discuss the topics not the people. Overall there is a satisfactory coverage of the problem</i>	25	15
Analysis Methodology		
Clear statement of which development methods are to be used and why they are appropriate; Clear statement of which tools are to be used and why they are appropriate; Clear description of how data collected will be analysed <i>Document review should be of DHCW documents relating to cybersecurity training. You need a case study of software development strategy to cover the cybersecurity operations requirement.</i>	25	13
Resources / Planning		
List of any deliverables; Clear diagram showing both timing and resource use; Completed ethics form; Limited and relevant appendices <i>Resources and plan are appropriate for the project as written.</i>	15	9
Document Presentation		
Correct spelling, grammar and punctuation; Flow of narrative/fluency; Coherence; Word processed ; Correct use of referencing with bibliography; Strict word limit <i>All figures should have captions. Make sure you follow the referencing guidelines</i>	15	9
TOTAL	100	56

Needs to include some practical cybersecurity work — please discuss with your project supervisor.
